MEMORANDUM FOR MR. LADD

Re: Lt. Gen. Hoyt S. Vandenberg  
Director, CIG

Special Agent Doherty of the Liaison Section contacted Colonel Wright, Executive Officer of General Vandenberg, and indicated to him that he had received a rumor to the effect that General Vandenberg was to resign and was to be replaced by an Admiral of the United States Navy.

Colonel Wright stated that ever since last August there have been rumors to the effect that General Vandenberg is to resign and take over some top position in the Government. Colonel Wright stated that he has talked these rumors over with General Vandenberg frequently and at the present time feels assured that as far as he or the General know the General has no intention of leaving CIG.

Colonel Wright stated, however, that when top Army officers are being considered for various assignments General Vandenberg is usually mentioned in connection with this type of rumor because he believes the General is an individual that must be considered in shifting Army top flight personnel. Colonel Wright stated that he is aware of the rumors to the effect that General Eisenhower is going to become Ambassador to a foreign country and also another rumor that General Eisenhower is to resign as Chief of Staff and run for the Presidency. He stated that to follow through with these rumors top flight Army officers also must be shifted and since General Vandenberg is considered a top flight Army officer it is only natural that he is mentioned in some capacity in filling the gaps created by the removal of Eisenhower.

Colonel Wright further related that in the event Vandenberg resigned as Director of CIG, and as Colonel Wright stated the General has no intention of doing so at the present time, he believed that his position will be filled by an Admiral due to the fact that it is believed CIG is not ready as yet for a civilian director.

Colonel Wright assured Agent Doherty that these rumors are strictly rumors at the present time and in the event anything definite occurs, he would be very happy to bring it to the Bureau's attention.

Respectfully,

RECORDED

Dear

Dwight

Whoever told you that General Eisenhower is seeking the Democratic nomination for President is, I feel sure, mistaken. The General was here in Texas a week or two ago, was wined and dined mightily, and made speeches in San Antonio, Houston, and so on. Wherever he went, his cronies (fellow-guests at luncheons and dinners) were members of the old-line Republican organization in Texas. These same Republicans, two years ago, were hot for Bob Taft and wouldn't touch Eisenhower with the proverbial ten-foot pole.

(b)(2)(C)  
(b)(2)(D)

and local Republicans merely snorted at it. - though not all- were Democrats who voted in the end, as I did, for Truman. When the General was down here this time he let the Republican regulars corral him, and his original supporters never even saw him. We're not miffed about it, but it strikes me that nobody who really wanted to be President would commit the tactical error of ignoring any organized group of supporters, especially a nonpartisan one such as ours was.

(b)(2)(C)  
(b)(2)(D)

Another thing. Though Eisenhower spoke mighty softly on the recent Navy-Air Force hearings, he did speak against the Navy side. There are enough ex-Navy men in this country to defeat any candidate who is against a strong Navy - even though there may not be enough of us to elect a Navy supporter. I doubt if a man who seriously wanted to be President would alienate the Navy veterans.

Eisenhower has turned out to be something of an enigma to me, and I suspect the reason is that he himself is confused about what he wants. He would like to be President, but he won't do anything to get the nomination because he likes the role of elder statesman. You can't be Bernie Baruch and FDR too - you have to choose. And I think that Eisenhower has let his chance slip by. He won't get the Democratic nomination because Truman controls it, and if he runs as a Republican I think he'll be beaten. I don't believe that any Republican except Stassen has a chance of being elected in 1952.

Hearty congratulations on your fine work in behalf of the Navy and the Marines.

General Dwight D. Eisenhower  
President  
Columbia University  
New York, New York

Dear General Eisenhower:

It is my very great pleasure to extend to you an invitation to deliver the graduation address to the Forty-fourth Session of the FBI National Academy on Friday, June 30, 1950. The exercises will be held in Washington, D. C., in the Departmental Auditorium located on Constitution Avenue between Twelfth and Fourteenth Streets, Northwest, and will begin promptly at 10:30 A. M. There is always a capacity audience of approximately 1,500 in attendance at these exercises, consisting in part of state, county and municipal officials and officials of the Federal Government.

The FBI National Academy for law enforcement officers was established by the FBI in 1935. The purpose of the Academy is to afford training in the advanced methods and techniques of law enforcement to representatives of state, county and municipal police organizations. The course of training is twelve weeks in length and is designed to develop police executives and police instructors. The Academy, since its inception, has been most enthusiastically received by law enforcement organizations and officials throughout the United States and its territories and there is always a waiting list of officers for attendance. With the graduation of the Forty-fourth Session, consisting of fifty-eight members, there will be 2,196 graduates.

While I realize there are very heavy demands upon your valuable time, I want to assure you that not only would the law enforcement officers attending the Academy be greatly honored by your acceptance of this invitation, but that the entire personnel of the FBI would likewise feel it a distinct honor if you could be with us. We shall be glad to arrange for a representative of this Bureau to confer with you about the program, and matters of transportation and hotel reservations at any convenient time, if you desire. I do hope that you can accept this invitation and if there is any additional information or assistance which you desire, I would appreciate hearing from you.

expressions of my highest esteem

Sincerely yours

J. Edgar Hoover

Dear Mr. Hoover:

Much as I should be delighted and honored to deliver the graduation address to the FBI Academy, I simply cannot accept your invitation. On my calendar, for many months, there has been a firm commitment for the final week of June that cannot be cancelled or postponed. I will not be free of it until the evening of July 3 at the very earliest. Under the circumstances, I have no alternative in the matter, as you will appreciate--I am sure. I reach this decision most reluctantly, but it is inescapable in the light of my scheduling.

My thanks and best wishes to you.

ASAC Whelan called from New York on the afternoon of 1/12/51, to advise that a G-2 representative in New York had come over to see him to relate a story which had been brought to them concerning a possible plot to kill General Eisenhower and his aide. G-2 received its information from [REDACTED]

G-2 requested the FBI to run down this rumor in view of the fact that civilians were involved.

I advised ASAC Whelan that there had been some publicity here recently in the newspapers concerning possible threats against the General and as a result, several Communists in France were arrested and that this might be the basis for the statement. However, in view of the fact that this statement had been made and until it was run down, we had no way of knowing whether there was any subversive angle involved. The New York Office should therefore attempt to locate [REDACTED] who made the statement and get to the bottom of it. ASAC Whelan said he would do this.

Dear Mr. Ladd

I thought you would be interested in the attached morning editions of London newspapers regarding the death of the King.

I was informed by a Parliamentary Member last night that the King, as I told you before, had cancer of the lung, one of which was removed some time ago. The cancer apparently, according to the Parliamentary Member, spread into his chest and all over his body and it was known in Royal Circles that he would not live over six months. Practically all of the members of the Royal Family knew this, excepting Princess Elizabeth as it was felt that it would interfere with her plans in visiting the Colonies and Dominions.

My Parliamentary contact also informed that other Members of Parliament believe World War III will start in 1953. He has just returned from a trip to [redacted] and he says that high-ranking officials there also hold the same views. He also had talks with Dwight D. Eisenhower and claims that Ike told him that he would run for President, if drafted.

Mr. Hoover:

(b)(7)(C) An acquaintance of [REDACTED] has advised that not long ago [REDACTED] privately explained the General's attitude about future political plans as follows:

The General definitely will not campaign for the presidency and will continue his present activities without definitely committing himself. However, if a stalemate arises insofar as the Republican nomination is concerned and General MacArthur feels that it will be his patriotic duty to accept the nomination, he will then agree to be nominated.

(b)(7)(C) DWIGHT D. [REDACTED] stated that, [REDACTED] General MacArthur and General Eisenhower had a conference some time in the past. During the course of the conference, General Eisenhower allegedly discussed the possibility of his being nominated by both the Democratic and Republican Parties for the Presidency and indicated he would like to run with this dual nomination. General MacArthur literally "blew his top" and asked Eisenhower if he realized what he was saying.

General MacArthur pointed out that this would be destroying the two-party system, by which the citizen is guaranteed a choice of candidates and that Eisenhower's actions would be contrary to the whole political philosophy of this country.

PURPOSE:

The purpose of this memorandum is to summarize action concerning Kevin C. McCann, the man behind the Dwight D. Eisenhower campaign.

BACKGROUND:

There is no information in our files concerning McCann.

The New York Times on April 8, 1951, reported that McCann was named President of Defiance College, Defiance, Ohio, on April 7, 1951, to succeed Dr. Harold Dana Hopkins, who was retiring on June 30, 1951.

The Times stated that McCann was a graduate of the University of St. Mary's, San Antonio, Texas, holding Bachelor and Master of Science degrees. The paper stated McCann is a former industrial engineer and newspaper publisher who enlisted in the Army in 1942. He received a Washington assignment with the Army in 1945, and was transferred to General Eisenhower's Headquarters in 1946. He was discharged from the Army in 1948 as a Lieutenant Colonel. The Times stated McCann was associated with Eisenhower, from 1946 until he accepted the presidency of Defiance College, as the General's assistant at both Columbia University and Supreme Headquarters of the Allied Powers in Europe. (New York Times, April 8, 1951, page 70)

The New York Times reported on September 11, 1951, that during an address to the Toledo, Ohio, Rotary Club on September 10, 1951, McCann spoke highly of Eisenhower, praising him for his "armored liberation" of Europe during World War II and his "spiritual liberation" of Europe in 1951. (New York Times, September 11, 1951, page 27)

Defiance College is a co-educational school established in 1885 offering degree courses in liberal arts subjects. (Patterson's American Education Directory, page 49)

On Sunday evening, May 25, 1952, the writer was present at a small informal get-together at the [redacted] attended by [redacted]

[redacted] and four or five other friends of [redacted]. The get-together was held prior to the time that the NBC-TV Program "AMERICAN FORUM OF THE AIR" was televised.

In conversation with the writer, [redacted] made the following observations:

(1) The GOP Convention will be a real hot battle between TAFT and EISENHOWER. Neither will win on the first ballot. [redacted] real concern is that the battle won't disrupt the Republican Party.

(2) EISENHOWER and his backers will do everything possible to prohibit the naming of General MacARTHUR as a compromise candidate. [redacted] EISENHOWER, if an unbreakable deadlock results, will throw his strength to TAFT rather than to MacARTHUR. EISENHOWER would not accept MacARTHUR as a running mate, but TAFT might run with MacARTHUR.

(3) EISENHOWER will attempt to divorce himself from public forums and debates prior to the GOP Convention in July. He will explain his position on the major issues through one or two speeches and by answering inquiries from newspaper, radio and television correspondents.

(4) [redacted] doesn't know what EISENHOWER's campaign will encompass if he receives the GOP nomination. [redacted]

[redacted] will do everything possible to incite EISENHOWER to make a vigorous and aggressive campaign so that the GOP fate of 1948 won't be repeated.

(5) [redacted] doesn't think that Governor DEWEY would be acceptable to the GOP Convention if a deadlock develops. He doesn't think that DEWEY is trying to maneuver himself into such a position.

(6) [redacted] doesn't think that MacARTHUR would accept a bid from the Democratic Party to be the V.P. nominee if EISENHOWER receives the GOP Presidential nomination.

## MEMORANDUM FOR THE DIRECTOR

At 12:45 PM on July 13, 1952, Mr. Arthur Vandenberg, Jr., who identified himself as Executive Assistant to General Eisenhower, telephonically communicated with the Bureau and expressed a desire to speak to you. In your absence, Mr. Vandenberg agreed to talk to me. It is noted that Mr. Nichols was not immediately available at the time of this call.

Mr. Vandenberg inquired of me as to whether the Bureau could provide personal protection to General Eisenhower during the course of his campaign for the Presidency. Mr. Vandenberg was informed that the Secret Service had been given the jurisdiction and the responsibility to provide personal protection to the President and his family. At this point, Mr. Vandenberg interrupted and stated that he should have known this and that this answered his question completely. He stated that apparently the Secret Service did not have jurisdiction to extend personal protection to General Eisenhower, as a candidate for the Presidency, as General Eisenhower had not heard anything from the Secret Service along these lines.

Mr. Vandenberg stated that he regretted bothering us regarding this matter and that he should have known our jurisdictional limitations. He asked that his very best wishes and personal regards be extended to you.

Respectfully submitted,

F. C. Holloman

SUBJECT: CONVERSATION WITH QUARTERMASTER GENERAL -

Monday night I met the Quartermaster General, Major General George A. Horkan. He was talking to several people and described himself as a very close friend and military associate of General Eisenhower. His son and Eisenhower's son served as Best Man at each others wedding and also each served as godfather for the others children first born.

He described Eisenhower as a square shooter and a diplomat. For example, Horkan wanted to be Quartermaster General when Eisenhower was Chief of Staff. Eisenhower told him that he would prefer personally for Horkan to be Quartermaster General but that he could find no fault with the present Quartermaster General and he would not recommend Horkan. By so doing, he won Horkan's additional respect for his straightforwardness, although he was disappointed at the time.

*li*

He stated that Eisenhower is demanding and expects things to be done properly. He also stated that Eisenhower is a very sensitive person which should not at any time be overlooked. He said that General Eisenhower is trusting and is in for many rude jolts if he is elected. For example, he would be unable to understand how a Congressman would be able to tell him one thing at ten o'clock and then the Congressman do another thing an hour later.

This is for your information. ✓

Dear Sir:

As God had decreed that the Holy United States should NEVER lose a victory in war, and as you have betrayed "The Power of God" working in behalf of His chosen United States in your giving away the American victory to the atheistic Soviets, you therefore became a TRAITOR before God, and against the Holy heritage which He gave to the American people.

Therefore I say to you, in God's Holy Name, that you shall in NO wise be elected president of this Holy nation.

The leadership of the Republican party has rejected the Divine Plan for our nation, and God has again rejected the Republican party.

It is therefore Spiritually impossible for you to become President of the United States.

"This know also, that in the LAST days (of this Christian age) perilous times shall come.

"For men shall be lovers of their own selves ('me-firsters').

"Traitors, heady, high-minded,

"Having a FORM of godliness, but DENYING the POWER thereof."  
2nd Timothy - 3rd chapter.

The Republicans have "denied the Power of God" working in American politics.

Governor Stevenson had nothing to do with the policies which has brought our nation into judgment before God; therefore he shall be elected president, the LAST President of this age.

Sincerely,

(b)(7)(C) [redacted]

## PURPOSE:

To advise that Bureau files contain no information to confirm the allegation of [redacted] to the effect that Dwight D. Eisenhower has forwarded a letter of commendation to the Communist-controlled Teachers Union in New York City in approximately 1947.

## DETAILS:

In response to your inquiry concerning the attached memorandum, each reference to Eisenhower contained in the Bureau's files has been examined by the File Review Unit of the Records Section, with negative results, in an effort to locate any information indicating Eisenhower had directed a letter of commendation to the Teachers Union or the United Public Workers Organization in New York City.

On the contrary, one reference was located on Page 67 of the Sixth Report of the Senate Fact-Finding Committee on Un-American Activities, California Legislature, 1951, which includes the following statements in connection with loyalty oaths.

"There seems to be little controversy concerning the idea that actual members of the Communist Party should not be permitted to teach in our schools. Among those who have voiced such opinions are General Dwight Eisenhower, recently President of Columbia University, and President James B. Conant of Harvard University. These gentlemen and 18 fellow members of an educational policies commission reached this conclusion two years ago, and their sentiments have been generally approved by educators and educational administrators throughout the Country...." DWIGHT D. EISENHOWER

Mr. J. Edgar Hoover, Chief  
Federal Bureau of Investigation  
Washington, D. C.

Dear Sir:

I wonder if you realize the dangers that now confront  
Eisenhower! The thieves and murderers from Stalin through  
Washington and every corner of these United States of  
America, and in almost every country throughout the world,  
are busy right today trying to cover their tracks. These  
vampires will stop at nothing to prevent his reaching  
Washington and thus uncovering the crimes he has committed  
to have planned to commit.

Every means should be made at once to prevent their accom-  
plishing his destruction and throwing our nation into the  
worst state of confusion imaginable. Don't overlook the  
vicious effort that has just been made by men in top positions.  
Why did they go so far to stop him? Their efforts are clean  
warn him to avoid them and he is not to be deceived.  
Not at once!

Very truly yours,  
Dwight D. Eisenhower

The following information has been obtained by Liaison Agent [redacted] from Mr. Bryan LaPlante, Chief, Washington Area Security Operations, Atomic Energy Commission (AEC). On November 19, 1952, the AEC Commissioners (Gordon Dean, Thomas Murray, Eugene Zuckert, and Henry Smyth) went to New York City to brief President-elect Eisenhower on the entire AEC operations and the contemplated program for the next 4 years. According to LaPlante, they were well received by the General who expressed extreme interest. Eisenhower again expressed his concern and displeasure with the disclosures of AEC operations and activities in the public press. You will recall that he mentioned this to the public press. You will recall that he mentioned this to LaPlante when LaPlante briefed him in Georgia concerning the hydrogen bomb explosion. He stated he felt something should be done about this.

LaPlante commented that while he was waiting in the outer office for the Commissioners to finish their meeting, the General's Secretary came out and made the comment to the Appointment Secretary that he could see no reason for "these CIA men" to have to come in to see the General every day. He felt that one briefing a week by the CIA representatives would be enough and that it appeared that these daily meetings were merely taking up time.

Mr Hoover  
Chief of F.B.I.

Dear Sir:

I am writing with reference to Mr Eisenhowers coming visit to Korea and to say that I hope you can induce him to wear bullet-proof clothing under his outer garments.

I think he is taking a big risk and his loss would be a terrible blow to this country at this time. The Russians as well as the Chinese Communists are likely to lay many plans hoping for an opportunity to take a long range shot at him.

Yours truly

de l'astrologue égyptien !

Le Caire. — Le célèbre astrologue égyptien Mohammed Youssef Elimini qui prédit des mois à l'avance le désastre de Pearl Harbor, la victoire de Churchill aux élections britanniques, la victoire d'El-Alamein, la naissance d'un fils au roi Farouk, etc., assure aujourd'hui que le général Eisenhower sera élu président des Etats-Unis par une « faible majorité », mais mourra assassiné quelque temps après son succès.

Il déclare également que le général, comme il l'a promis, se rendra en Corée et réussira à conclure une trêve. Mais celle-ci sera de courte durée.

Elimini a vu dans les astres que le général Mac Arthur reprendra à brève échéance son commandement à Tokio.

TRANSLATION FROM FRENCH

THE VIEW-POINT OF THE EGYPTIAN ASTROLOGER

11-1-52

Cairo.- The celebrated Egyptian astrologer, MOHAMMED YOUSSEF ELIMINIANI, who predicted, months in advance, the Pearl Harbor disaster, CHURCHILL's victory in the British elections, the victory of El-Alamein, the birth of a son to King FAROUK, etc...declares today that General EISENHOWER will be elected President of the United States by a "feeble majority," but that he would die at the hand of an assassin some time after his success.

He also declares that the General, as he promised, would go to Korea and would succeed in bringing about a truce. But it would be of short duration.

ELIMINIANI saw in the stars that General MACARTHUR would take back his command in Tokio for a brief period of time.

Dear Mr. Hoover:

*WILLIAM D. EISENHOWER*  
Governor Sherman Adams has authorized me to communicate with you directly concerning the following matter.

Shortly before his departure for Korea, the President-elect designated me as Chairman of a Special Committee on Government Reorganization, with Dr. Arthur Flemming and Dr. Milton Eisenhower as its members, to make certain studies and recommendations concerning the Executive Branch of the government. In the course of these studies we will inevitably be dealing with information of a classified nature. *EG-1*

The purpose of this letter, therefore, is to request you to order such an inquiry as would be appropriate to the circumstances, of each of the persons whose names are listed on the attached page and, likewise, of myself. In the event that any derogatory information is developed with respect to me, I would expect you to present it to the President-elect. The reports on the other names should be communicated to me in such form as has been customary in your relations with other executive agencies.

With best wishes,

Sincerely,

*Nelson A. Rockefeller*

Dear Mr. Hoover:

Your letter of December 11 to which was attached reports on certain investigations has been hand delivered to me.

There are certain other investigations now being conducted which will be transmitted when complete. Kindly include in your investigations those as shown on list attached.

I do not think I made it clear in my letter of December 10 that the reports on names of individuals submitted by Mr. Nelson Rockefeller may be sent to me for purpose of keeping these records in one file.

I presume the investigations of Arthur H. Vandenberg and Martin Durkin are in process.

There will be a considerable number of the present personnel of the White House retained in employment. These are principally those of the lower Civil Service Classes. I assume that a satisfactory and favorable record of each presently employed White House employee is in your file.

Sincerely yours,

*Sherman Adams*

Dear Governor Adams:

I wish to acknowledge receipt of your letter dated December 16, 1952, requesting investigations of Miss Edith Sweeney, Mrs. Floyd E. McCaffree, Mr. Jesse W. Tapp, Mr. Robert Blaine Murray, Jr., and Mr. Samuel Wagner Anderson.

With regard to Mr. Tapp, he has already been investigated at the request of the Honorable Ezra Taft Benson. A summary of the investigation of Mr. Tapp was forwarded to you by letter dated December 15, 1952.

The investigation of Arthur E. Vandenberg is presently being conducted.

The investigation of Martin P. Durkin has been completed and the results were forwarded to you by letter dated, December 15, 1952.

With regard to your inquiry concerning the personnel at the White House who would be retained in employment, I am unable to answer your inquiry because we are not advised of the identity of the individuals who are employed at the White House in various capacities.

It is not normally the practice of this Bureau to investigate employees of the White House. Ordinarily, the Civil Service Commission conducts investigations of persons entering on duty in the classified Government positions. We also know, from past experience, that the United States Secret Service conducts investigations of at least some of the individuals employed at the White House.

It is assumed, therefore, that individuals on duty at the White House or in the Executive Offices of the President have been checked against files of this Bureau and, of course, if such a check had developed information reflecting upon their loyalty, a full field investigation under the Loyalty Program would have been conducted concerning them; otherwise, as above-stated, any investigation of such persons would have been made either by the Civil Service Commission or the United States Secret Service.

With expressions of my highest esteem and best regards,

Sincerely yours,  
J. Edgar Hoover

MEMORANDUM FOR MR. TOLSON  
MR. NICHOLS  
MR. LADD

DWIGHT D. EISENHOWER

On December 30, 1952, at the request of General Eisenhower, I called at his headquarters at 9:30 a. m.

The General stated that he was desirous of talking with me about the contents of some of the reports upon the investigations which we had made of persons who were being appointed to important positions in his administration. He referred particularly to the report upon [REDACTED]

[REDACTED] He stated he noted that in the FBI report there was reference to the fact that there had been a rumor at one time that [REDACTED] but that the investigation had failed to substantiate any such allegation. The General stated that he would like to have me give consideration to the possibility of setting up two files upon cases, one to contain the factual material and the other to contain the rumors which we have not been able to substantiate. He stated that he made this suggestion because he felt, first, that it was probably unfair to disseminate rumors about an individual, even though such rumors are dispelled through investigation; and secondly, he stated that he anticipated that there would be brought to bear upon him considerable pressure after he became President to make available certain Government files. He stated he had, while in the Armed Services, declined to make available files to Congress but that there might be pressure of sufficient volume exerted that would make it necessary for him to re-evaluate this procedure and if there were two sets of files on an individual or a situation, one containing facts established and the other the rumors, that he might be inclined to make available in some situations the actual files. He stated he certainly would be opposed to making available to Congress or anyone else the so-called "raw" files that contained largely rumors.

I informed the General that it had been the practice of the Bureau not to disseminate to other Government agencies uncorroborated information but that we had included complete information in the reports being made to his office upon applicants in view of the importance of the positions to which such persons were being appointed. I also informed the General that I would have an immediate study made to put into force and effect the suggestions that he had made of having two separate files, one containing facts and the other rumors. (Upon my return to my hotel, I contacted Mr. Ladd by long distance and instructed him to see that this study was made and that steps were taken to put the practice into force and effect. I also instructed Mr. Ladd to see

that all future reports to General Eisenhower's headquarters be carefully screened to eliminate any uncorroborated rumors or gossip.)

The General discussed at some length with me some of the over-all problems dealing with investigations and with intelligence. He stated that it was his desire to have the FBI handle the domestic phase of such matters and CIA the foreign. He stated he felt that both agencies might be able to work cordially together and effect results for the best interests of the country. He commented that General Smith was a very good man, although inclined at times to "pop off." He commented favorably upon Mr. Allen Dulles and inquired of me as to what my opinion was concerning him. I told General Eisenhower I felt that Allen Dulles was a brilliant man with a very excellent mind but that he sometimes was not as practical as he might be in regard to operational intelligence. I also indicated to General Eisenhower that I felt that General Smith was a very sincere and earnest man but, unfortunately, he had inherited from OSS some elements that were not conducive to the best operations of such an agency as CIA.

During the course of my discussion with General Eisenhower

SUBJECT: THOMAS EDWARD SWEENEY  
INFORMATION CONCERNING

With reference to my memorandum of January 3, 1953, concerning the above individual, I telephoned Miss Martha Isbell of General Eisenhower's Staff at the Commodore Hotel this evening, January 8, 1953, and gave her the information from the loyalty form and that there was no derogatory data or criminal record.

Miss Isbell stated that she was very happy to get the results of the name check so quickly. She stated that Mr. Sweeney also informed her that [REDACTED]

During my conversation with her, she stated that she will not return to Capitol Hill but that she will be assigned in the White House to what she believes will be an important position.

Miss Isbell further stated that she wanted the Bureau to know that everyone on General Eisenhower's staff is delighted with their contacts with the FBI, that the FBI has really been playing ball efficiently and right on the line to the delight of everyone. I thanked her for her remarks and told her I was certain the Director would be very happy to know that our efforts have been acceptable.

Miss Isbell stated she would call me again after January 20th when she is settled in the White House.

 FROM : Mr. D. R. Rogerick

DATE: January 17, 1953

SUBJECT: UP INQUIRY CONCERNING DENIAL OF JOBS  
 OF TWO EISENHOWER HEADQUARTER'S EMPLOYEES

DWIGHT

Mr. Le Nichols, UP representative, Phone Ex. 3-5430, telephonically contacted the writer at 12:01 A.M., January 17, 1953, and advised that he was calling concerning a story in the New York Times of January 16, 1953, to the effect that two employees of President-designate Eisenhower's headquarters had been refused jobs due to unfavorable information developed by the FBI. Nichols wanted to know whether this information was true or false and desired any comments we might be able to make concerning the matter. He was advised that he would be recontacted.

ACTION

The writer telephoned Mr. J. J. McGuire who directed that Nichols be advised the FBI had no comment to make concerning the information.

Nichols was recontacted at 12:10 A.M. and advised to that effect. He expressed his thanks and stated that he had expected we would have no comment but wanted to check with us anyway.

Dwight D. Eisenhower

Governor Sherman Adams' secretary called me today to tell me that Bureau letter addressed to Governor Adams dated January 21, 1953, was absolutely correct as stated: that these people have been reported by the press and have been appointed to posts and Governor Sherman Adams' office has no record either of having requested an investigation of them. She stated she presumed I would like to have the Governor's office request an investigation of these people in writing and I told her this was not necessary if that was what the Governor wanted, that we would go right ahead on her assurance. She stated she knew the Governor wanted these people investigated and she would just note on our letter that the investigations have been requested. I told her this would be entirely satisfactory and we would not have to have any correspondence and when the investigations were completed, we would send copies of the reports to Governor Adams.

Very truly yours,

The Director has talked to Herbert Brownell and has worked out with Mr. Brownell the following procedure.

Cabinet Officer-designates, who call the FBI and request investigations on sub-Cabinet positions, such as deputies, should be investigated and reports submitted to the Cabinet officers. Any others calling the Bureau, such as Nelson Rockefeller, President Johnson of Philadelphia, and persons in lesser ranks, should be referred to Herbert Brownell. Brownell will handle such requests and will decide whether we are to make investigations or not.

The Director wants copies of all the summaries on investigations furnished to Governor Sherman Adams and any others, such as Mr. Benson, sent to Mr. Brownell; that we should set forth in the letter to whom we have furnished copies of the material and we should list the pending investigations, pointing out that upon the conclusion of the investigations, copies of these reports will be sent to Mr. Brownell.

For the purposes of these instructions, the Director stated we would assume that Oveta Culp Hobby has a Cabinet rank and investigations requested by her will, of course, be included in the letter to Brownell.

The Director stated the Rockefeller letters should be answered along this line, however, we have already answered the Rockefeller letter and I will have to straighten this out with the Director when he calls back.

Purpose:

To advise that the Correlation-liaison Section of the Domestic Intelligence Division is currently receiving name check requests from various agencies concerning persons investigated or under investigation for President-elect Eisenhower or his Cabinet officers and to point out their method of handling and possible pitfalls of future dissemination. *(b)(2)(C)*

Details:

*(b)(2)(C)* The Correlation-liaison Section of the Domestic Intelligence Division has received requests for name checks from other government agencies concerning persons investigated or under investigation for President-elect Eisenhower or his Cabinet officers. Upon receipt of the first request of this type, the Correlation-liaison Section contacted *(b)(2)(C)* for information as to the status of these inquiries.

It was pointed out that no reports are being disseminated to the officials of the new administration as yet and that the investigation was being summarized into memorandum form for dissemination. It was further pointed out that in view of this it would be dangerous to disseminate reports to other agencies and that in any event a memorandum should undoubtedly be prepared on their requests thoroughly apprising the Bureau officials of the situation.

This is even more necessary at the present time as General Eisenhower has requested that unsubstantiated rumor be omitted from the summary memoranda. This is being done; however, unsubstantiated rumors are not being deleted from the reports that remain in our files as no such deletion should be made. *C*

The above is being brought to your attention so that you will be aware of the situation. The Correlation-liaison Section has been requested to make available tickler copies of their memoranda concerning their handling of the name check requests so that we will be apprised of their manner of handling.

TO : MR. A. H. BELMONT *AB*

DATE: January 23, 1953

FROM : V. P. KEAY *VPK*SUBJECT: ADMIRAL ROBERT CARNEY,  
ADMIRAL ARTHUR W. RADFORD;  
INFORMATION CONCERNING*JOINT CHIEFS OF STAFF*  
*D. EISENHOWER*

On January 22, 1953, Rear Admiral Stout, ONI, advised the Bureau's Liaison Representative that he had heard rumors around the Pentagon that Admiral Carney, Commander in Chief Allied Forces, Southern Europe, may be asked by President Eisenhower to be his "Chief of Staff" and Chairman of the Joint Chiefs of Staff. Admiral Stout explained that as "Chief of Staff" he would advise the President on military matters throughout the world.

Admiral Stout also advised that it had been fairly reliably reported that when the President went to Korea recently he asked Admiral Radford to be Chairman of the Joint Chiefs of Staff but that Admiral Radford had turned him down. Admiral Radford is presently Commander in Chief of the Pacific and accompanied President Eisenhower to Korea. Admiral Radford has been on his present tour for four years and a change in his assignment is contemplated. He is reportedly a good friend of General Walter Bedell Smith.

Admiral Stout advised that the above information has in no way been confirmed

*Dwight D. EISENHOWER*

MR. PRESIDENT, MR. SPEAKER, MEMBERS OF THE EIGHTY-THIRD CONGRESS:

I welcome the honor of appearing before you to deliver my first message to the Congress.

It is manifestly the joint purpose of the Congressional leadership and of this Administration to justify the summons to governmental responsibility issued last November by the American people.

The grand labors of this leadership will involve:

Application of our influence in world affairs with such fortitude and such foresight that it will deter aggression and eventually secure peace;

Establishment of a national administration of such integrity and such efficiency that its honor at home will ensure respect abroad;

Encouragement of those incentives that inspire creative initiative in our economy, so that its productivity may fortify freedom everywhere; and,

Dedication to the well-being of all our citizens and to the attainment of equality of opportunity for all, so that our nation will ever act with the strength of unity in every task to which it is called.

The purpose of this message is to suggest certain lines along which our joint efforts may immediately be directed toward realization of these four ruling purposes.

The time that this Administration has been in office has been too brief to permit preparation of a detailed and comprehensive program of recommended action to cover all phases of the responsibilities that devolve upon our country's new leaders. Such a program will be filled out in the weeks ahead as, after appropriate study, I shall submit additional recommendations for your consideration. Today can provide only a sure and substantial beginning.

62-81742-  
NOT RECORDED

5 FEB 19 1953

Our country has come through a painful period of trial and disillusionment since the victory of 1945. We anticipated a world

27 1953

of peace and cooperation. The calculated pressures of aggressive Communism have forced us, instead, to live in a world of turmoil.

From this costly experience we have learned one clear lesson. We have learned that the free world cannot indefinitely remain in a posture of paralyzed tension, leaving forever to the aggressor the choice of time and place and means to cause greatest hurt to us at least cost to himself.

This Administration has, therefore, begun the definition of a new, positive foreign policy. This policy will be governed by certain fixed ideas. They are these:

(1) Our foreign policy must be clear, consistent and confident. This means that it must be the product of genuine, continuous cooperation between the Executive and the Legislative branches of this government. It must be developed and directed in the spirit of true bipartisanship.

(2) The policy we embrace must be a coherent global policy. The freedom we cherish and defend in Europe and in the Americas is no different from the freedom that is imperilled in Asia.

(3) Our policy, dedicated to making the free world secure, will envision all peaceful methods and devices -- except breaking faith with our friends. We shall never acquiesce in the enslavement of any people in order to purchase fancied gain for ourselves. I shall ask the Congress at a later date to join in an appropriate resolution making clear that this government recognizes no kind of commitment contained in secret understandings of the past with foreign governments which permit this kind of enslavement.

(4) The policy we pursue will recognize the truth that no single country, even one so powerful as ours, can alone defend the liberty of all nations threatened by Communist aggression from without or subversion within. Mutual security means effective mutual cooperation. For the United States, this means that, as a matter of common sense and national interest, we shall give help to other nations in the measure that they strive earnestly to do their full share of the common task. No wealth of aid could compensate for poverty of spirit. The heart of every free nation must be honestly dedicated to the preserving of its own independence and security.

(5) Our policy will be designed to foster the advent of practical unity in Western Europe. The nations of that region have contributed notably to the effort of sustaining the security of the free world. From the jungles of Indo-China and Malaya to the northern shores of Europe, they have vastly improved their defensive strength. Where called upon to do so, they have made costly and bitter sacrifices to hold the line of freedom.

But the problem of security demands closer cooperation among the nations of Europe than has been known to date. Only a more closely integrated economic and political system can provide the greatly increased economic strength needed to maintain both necessary military readiness and respectable living standards.

Europe's enlightened leaders have long been aware of these facts. All the devoted work that has gone into the Schuman Plan, the European Army, and the Strasbourg Conference has testified to their vision and determination. These achievements are the more remarkable when we realize that each of them has marked a victory -- for France and for Germany alike -- over the divisions that in the past have brought such tragedy to these two great nations and to the world.

The needed unity of Western Europe manifestly cannot be manufactured from without; it can only be created from within. But it is right and necessary that we encourage Europe's leaders

by informing them of the high value we place upon the earnestness of their efforts toward this goal. Real progress will be conclusive evidence to the American people that our material sacrifices in the cause of collective security are matched by essential political, economic and military accomplishments in Western Europe.

(6) Our foreign policy will recognize the importance of profitable and equitable world trade.

A substantial beginning can and should be made by our friends themselves. Europe, for example, is now marked by checkered areas of labor-surplus and labor-shortage, of agricultural areas needing machines and industrial areas needing food. Here and elsewhere we can hope that our friends will take the initiative in creating broader markets and more dependable currencies, to allow greater exchange of goods and services among themselves.

Action along these lines can create an economic environment that will invite vital help from us.

This help includes:

First: Revising our customs regulations to remove procedural obstacles to profitable trade. I further recommend that the Congress take the Reciprocal Trade Agreements Act under immediate study and extend it by appropriate legislation. This objective must not ignore legitimate safeguarding of domestic industries, agriculture and labor standards. In all Executive study and recommendations on this problem, labor and management and farmers alike will be earnestly consulted.

Second: Doing whatever government properly can to encourage the flow of private American investment abroad. This involves, as a serious and explicit purpose of our foreign policy, the encouragement of a hospitable climate for such investment in foreign nations.

Third: Availing ourselves of facilities overseas for the economical production of manufactured articles which are needed for mutual defense and which are not seriously competitive with our own normal peacetime production.

Fourth: Receiving from the rest of the world, in equitable exchange for what we supply, greater amounts of important raw materials which we do not ourselves possess in adequate quantities.

### III

In this general discussion of our foreign policy, I must make special mention of the war in Korea.

This war is, for Americans, the most painful phase of Communist aggression throughout the world. It is clearly a part of the same calculated assault that the aggressor is simultaneously pressing in Indo-China and in Malaya, and of the strategic situation that manifestly embraces the island of Formosa and the Chinese Nationalist forces there. The working out of any military solution to the Korean War will inevitably affect all these areas.

The Administration is giving immediate increased attention to the development of additional Republic of Korea forces. The citizens of that country have proved their capacity as fighting men and their eagerness to take a greater share in the defense of their homeland. Organization, equipment, and training will allow them to do so. Increased assistance to Korea for this purpose conforms fully to our global policies.

- 4 -

In June 1950, following the aggressive attack on the Republic of Korea, the United States Seventh Fleet was instructed both to prevent attack upon Formosa and also to insure that Formosa should not be used as a base of operations against the Chinese Communist mainland.

This has meant, in effect, that the United States Navy was required to serve as a defensive arm of Communist China. Regardless of the situation in 1950, since the date of that order the Chinese Communists have invaded Korea to attack the United Nations forces there. They have consistently rejected the proposals of the United Nations Command for an armistice. They recently joined with Soviet Russia in rejecting the armistice proposal sponsored in the United Nations by the Government of India. This proposal had been accepted by the United States and fifty-three other nations.

Consequently there is no longer any logic or sense in a condition that required the United States Navy to assume defensive responsibilities on behalf of the Chinese Communists, thus permitting those Communists, with greater impunity, to kill our soldiers and those of our United Nations allies, in Korea.

I am, therefore, issuing instructions that the Seventh Fleet no longer be employed to shield Communist China. This order implies no aggressive intent on our part. But we certainly have no obligation to protect a nation fighting us in Korea.

#### IV

Our labor for peace in Korea and in the world imperatively demands the maintenance by the United States of a strong fighting service ready for any contingency.

Our problem is to achieve adequate military strength within the limits of endurable strain upon our economy. To amass military power without regard to our economic capacity would be to defend ourselves against one kind of disaster by inviting another.

Both military and economic objectives demand a single national military policy, proper coordination of our armed services, and effective consolidation of certain logistics activities.

We must eliminate waste and duplication of effort in the armed services.

We must realize clearly that size alone is not sufficient. The biggest force is not necessarily the best -- and we want the best.

We must not let traditions or habits of the past stand in the way of developing an efficient military force. All members of our forces must be ever mindful that they serve under a single flag and for a single cause.

We must effectively integrate our armament programs and plans in such careful relation to our industrial facilities that we assure the best use of our man-power and our materials.

Because of the complex technical nature of our military organization and because of the security reasons involved, the Secretary of Defense must take the initiative and assume the responsibility for developing plans to give our nation maximum safety at minimum cost. Accordingly, the new Secretary of Defense and his civilian and military associates will, in the future, recommend such changes in present laws affecting our defense activities as may be necessary to clarify responsibilities and improve the total effectiveness of our defense effort.

This effort must always conform to policies laid down in the National Security Council.

The statutory function of the National Security Council is to assist the President in the formulation and coordination of significant domestic, foreign, and military policies required for the security of the Nation. In these days of tension, it is essential that this central body have the vitality to perform effectively its statutory role. I propose to see that it does so.

Careful formulation of policies must be followed by clear understanding of them by all peoples. A related need, therefore, is to make more effective all activities of the government related to international information.

I have recently appointed a committee of representative and informed citizens to survey this field and to make recommendations in the near future for legislative, administrative, or other action.

A unified and dynamic effort in this whole field is essential to the security of the United States and of the other peoples in the community of free nations. There is but one sure way to avoid total war -- and that is to win the cold war.

While retaliatory power is one strong deterrent to a would-be aggressor, another powerful deterrent is defensive power. No enemy is likely to attempt an attack foredoomed to failure.

Because the building of a completely impenetrable defense against attack is still not possible, total defensive strength must include civil defense preparedness. Because we have incontrovertible evidence that Soviet Russia possesses atomic weapons, this kind of protection becomes sheer necessity.

Civil defense responsibilities primarily belong to the state and local governments -- recruiting, training and organizing volunteers to meet any emergency. The immediate job of the federal government is to provide leadership, to supply technical guidance, and to continue to strengthen its civil defense stockpile of medical, engineering and related supplies and equipment. This work must go forward without lag.

V

I have referred to the inescapable need for economic health and strength if we are to maintain adequate military power and exert influential leadership for peace in the world.

Our immediate task is to chart a fiscal and economic policy that can:

- (1) Reduce the planned deficits and then balance the budget, which means among other things, reducing Federal expenditures to the safe minimum;
- (2) Meet the huge costs of our defense;
- (3) Properly handle the burden of our inheritance of debt and obligations;
- (4) Check the menace of inflation;
- (5) Work toward the earliest possible reduction of the tax burden;
- (6) Make constructive plans to encourage the initiative of our citizens.

It is important that all of us understand that this Administration does not and cannot begin its task with a clean slate. Much already has been written on the record, beyond our power quickly to erase or to amend. This record includes our inherited burden of indebtedness and obligations and deficits.

The current year's budget, as you know, carries a 5.9 billion dollar deficit, and the budget which was presented to you before this Administration took office, indicates a budgetary deficit of 9.9 billion for the fiscal year ending June 30, 1954. The national debt is now more than 265 billion dollars. In addition, the accumulated obligational authority of the federal government for future payment totals over 80 billion dollars. Even this amount is exclusive of large contingent liabilities, so numerous and extensive as to be almost beyond accurate description.

The bills for the payment of nearly all of the 80 billion dollars of obligations will be presented during the next four years. These bills, added to the current costs of government we must meet, make a formidable burden.

The present authorized government debt limit is 275 billion dollars. The forecast presented by the outgoing Administration with the fiscal year 1954 budget indicates that -- before the end of the fiscal year and at the peak of demand for payments during the year -- the total government debt may approach and even exceed that limit. Unless budgeted deficits are checked, the momentum of past programs will force an increase of the statutory debt limit.

Permit me this one understatement: To meet and to correct this situation will not be easy.

Permit me this one assurance: Every Department head and I are determined to do everything we can to resolve it.

The first order of business is the elimination of the annual deficit. This cannot be achieved merely by exhortation. It demands the concerted action of all those in responsible positions in the government and the earnest cooperation of the Congress.

Already, we have begun an examination of the appropriations and expenditures of all departments in an effort to find significant items that may be decreased or cancelled without damage to our essential requirements.

Getting control of the budget requires also that State and local governments and interested groups of citizens restrain themselves in their demands upon the Congress that the Federal Treasury spend more and more money for all types of projects.

A balanced budget is an essential first measure in checking further depreciation in the buying power of the dollar. This is one of the critical steps to be taken to bring an end to planned inflation. Our purpose is to manage the government's finances so as to help and not hinder each family in balancing its own budget.

Reduction of taxes will be justified only as we show we can succeed in bringing the budget under control. As the budget is balanced and inflation checked, the tax burden that today stifles initiative can and must be eased.

Until we can determine the extent to which expenditures can be reduced, it would not be wise to reduce our revenues.

Meanwhile, the tax structure as a whole demands review. The Secretary of the Treasury is undertaking this study immediately. We must develop a system of taxation which will impose the least possible obstacle to the dynamic growth of the country. This includes particularly real opportunity for the growth of small businesses. Many readjustments in existing taxes will be necessary to serve

these objectives and also to remove existing inequities. Clarification and simplification in the tax laws as well as the regulations will be undertaken.

In the whole area of fiscal policy -- which must, in its various aspects, be treated in recommendations to the Congress in coming weeks -- there can now be stated certain basic facts and principles.

First: It is axiomatic that our economy is a highly complex and sensitive mechanism. Hasty and ill-considered action of any kind could seriously upset the subtle equation that encompasses debts, obligations, expenditures, defense demands, deficits, taxes, and the general economic health of the Nation. Our goals can be clear, our start toward them can be immediate -- but action must be gradual.

Second: It is clear that too great a part of the national debt comes due in too short a time. The Department of the Treasury will undertake at suitable times a program of extending part of the debt over longer periods and gradually placing greater amounts in the hands of longer-term investors.

Third: Past differences in policy between the Treasury and the Federal Reserve Board have helped to encourage inflation. Henceforth, I expect that their single purpose shall be to serve the whole nation by policies designed to stabilize the economy and encourage the free play of our people's genius for individual initiative.

In encouraging this initiative, no single item in our current problems has received more thoughtful consideration by my associates, and by the many individuals called into our counsels, than the matter of price and wage control by law.

The great economic strength of our democracy has developed in an atmosphere of freedom. The character of our people resists artificial and arbitrary controls of any kind. Direct controls, except those on credit, deal not with the real causes of inflation but only with its symptoms. In times of national emergency, this kind of control has a role to play. Our whole system, however, is based upon the assumption that, normally, we should combat wide fluctuations in our price structure by relying largely on the effective use of sound fiscal and monetary policy, and upon the natural workings of economic law.

Moreover, American labor and American business can best resolve their wage problems across the bargaining table. Government should refrain from sitting in with them unless, in extreme cases, the public welfare requires protection.

We are, of course, living in an international situation that is neither an emergency demanding full mobilization, nor is it peace. No one can know how long this condition will persist. Consequently, we are forced to learn many new things as we go along -- clinging to what works, discarding what does not.

In all our current discussions on these and related facts, the weight of evidence is clearly against the use of controls in their present forms. They have proved largely unsatisfactory or unworkable. They have not prevented inflation; they have not kept down the cost of living. Dissatisfaction with them is wholly justified. I am convinced that now -- as well as in the long run -- free and competitive prices will best serve the interests of all the people, and best meet the changing, growing needs of our economy.

Accordingly, I do not intend to ask for a renewal of the present wage and price controls on April 30, 1953, when present legislation expires. In the meantime, steps will be taken to eliminate controls in an orderly manner, and to terminate special agencies no longer needed for this purpose. It is obviously to be expected that the removal of these controls will result in

individual price changes -- some up, some down. But a maximum of freedom in market prices as well as in collective bargaining is characteristic of a truly free people.

I believe also that material and product controls should be ended, except with respect to defense priorities and scarce and critical items essential for our defense. I shall recommend to the Congress that legislation be enacted to continue authority for such remaining controls of this type as will be necessary after the expiration of the existing statute on June 30, 1953.

I recommend the continuance beyond June 30 of the authority for federal control over rents in those communities in which serious housing shortages exist. These are chiefly the so-called defense areas. In these and all areas, the federal government should withdraw from the control of rents as soon as practicable. But before they are removed entirely, each legislature should have full opportunity to take over, within its own state, responsibility for this function.

It would be idle to pretend that all our problems in this whole field of prices will solve themselves by mere federal withdrawal from direct controls.

We shall have to watch trends closely. If the freer functioning of our economic system, as well as the indirect controls which can be appropriately employed, prove insufficient during this period of strain and tension, I shall promptly ask the Congress to enact such legislation as may be required.

In facing all these problems -- wages, prices, production, tax rates, fiscal policy, deficits -- everywhere we remain constantly mindful that the time for sacrifice has not ended. But we are concerned with the encouragement of competitive enterprise and individual initiative precisely because we know them to be our Nation's abiding sources of strength.

## VI

Our vast world responsibility accents with urgency our people's elemental right to a government whose clear qualities are: loyalty, security, efficiency, economy and integrity.

The safety of America and the trust of the people alike demand that the personnel of the federal government be loyal in their motives and reliable in the discharge of their duties. Only a combination of both loyalty and reliability promises genuine security.

To state this principle is easy: to apply it can be difficult. But this security we must and shall have. By way of example, all principal new appointees to departments and agencies have been investigated at their own request by the Federal Bureau of Investigation.

Confident of your understanding and cooperation, I know that the primary responsibility for keeping our country loyal and the dangerous rests squarely upon the Executive Branch. When this Branch so conducts itself as to require policing by another Branch of the government, it invites its own disorder and confusion.

I am determined to meet this responsibility of the Executive. The heads of all Executive departments and agencies have been instructed to initiate at once effective programs of security with respect to their personnel. The Attorney General will advise and guide the departments and agencies in the shaping of these programs, designed at once to govern the employment of new personnel and to review speedily any derogatory information concerning incumbent personnel.

To carry out these programs, I believe that the powers of the Executive Branch under existing law are sufficient. If they should prove inadequate, the necessary legislation will be requested.

These programs will be both fair to the rights of the individual and effective for the safety of the Nation. They will, with care and justice, apply the basic principle that public employment is not a right but a privilege.

All these measures have two clear purposes. Their first purpose is to make certain that this nation's security is not jeopardized by false servants. Their second purpose is to clear the atmosphere of that unreasoned suspicion that accepts rumor and gossip as substitutes for evidence.

Our people, of course, deserve and demand of their federal government more than security of personnel. They demand, also, efficient and logical organization, true to constitutional principles.

I have already established a Committee on Government Organization. The Committee is using as its point of departure the reports of the Hoover Commission and subsequent studies by several independent agencies. To achieve the greater efficiency and economy which the Committee analyses show to be possible, I ask the Congress to extend the present Government Reorganization Act for a period of eighteen months or two years beyond its expiration date of April 1, 1953.

There is more involved here than realigning the wheels and smoothing the gears of administrative machinery. The Congress rightfully expects the Executive to take the initiative in discovering and removing outmoded functions and eliminating duplication.

One agency, for example, whose head has promised early and vigorous action to provide greater efficiency is the Post Office. One of the oldest institutions of our federal government, its service should be of the best. Its employees should merit and receive the high regard and esteem of the citizens of the nation. There are, today, in some areas of the postal service, both waste and incompetence to be corrected. With the cooperation of the Congress, and taking advantage of its accumulated experience in postal affairs, the Postmaster General will institute a program directed at improving service while at the same time reducing costs and decreasing deficits.

In all Departments, dedication to these basic precepts of security and efficiency, integrity and economy can and will produce an Administration deserving of the trust the people have placed in it.

Our people have demanded nothing less than good, efficient government. They shall get nothing less.

## VII

Vitally important are the water and minerals, public lands and standing timber, forage and wild life of this country. A vast-growing population will have vast future needs in these resources. We must more than match the substantial achievements in the half-century since President Theodore Roosevelt awakened the nation to the problem of conservation.

This calls for a strong federal program in the field of resource development. Its major projects should be timed, where

possible, to assist in levelling off peaks and valleys in our economic life. Soundly-planned projects already initiated should be carried out. New ones will be planned for the future.

The best natural resources program for America will not result from exclusive dependence on federal bureaucracy. It will involve a partnership of the states and local communities, private citizens and the federal government, all working together. This combined effort will advance the development of the great river valleys of our nation and the power that they can generate. Likewise, such a partnership can be effective in the expansion throughout the nation of upstream storage; the sound use of public lands; the wise conservation of minerals; and the sustained yield of our forests.

There has been much criticism, some of it apparently justified, of the confusion resulting from overlapping federal activities in this entire field of resource-conservation. This matter is being exhaustively studied and appropriate reorganization plans will be developed.

Most of these particular resource problems pertain to the Department of the Interior. Another of its major concerns is our country's island possessions. Here, one matter deserves attention. The platforms of both political parties promised immediate statehood to Hawaii. The people of that Territory have earned that status. Statehood should be granted promptly with the first election scheduled for 1954.

### VIII

One of the difficult problems which face the new Administration is that of the slow, irregular decline of farm prices. This decline, which has been going on for almost two years, has occurred at a time when most non-farm prices and farm costs-of-production are extraordinarily high.

Present agricultural legislation provides for the mandatory support of the prices of basic farm commodities at ninety percent of parity. The Secretary of Agriculture and his associates will, of course, execute the present act faithfully and thereby seek to mitigate the consequences of the downturn in farm income.

This price-support legislation will expire at the end of 1954.

We should begin now to consider what farm legislation we should develop for 1955 and beyond. Our aim should be economic stability and full parity of income for American farmers. But we must seek this goal in ways that minimize governmental interference in the farmers' affairs, that permit desirable shifts in production, and that encourage farmers themselves to use initiative in meeting changing economic conditions.

A continuing study reveals nothing more emphatically than the complicated nature of this entire subject. Among other things, it shows that the prosperity of our agriculture depends directly upon the prosperity of the whole country -- upon the purchasing power of American consumers. It depends also upon the opportunity to ship abroad large surpluses of particular commodities, and therefore upon sound economic relationships between the United States and many foreign countries. It involves research and scientific investigation, conducted on an extensive scale. It involves special credit mechanisms, and marketing, rural electrification, soil conservation, and other programs.

The whole complex of agricultural programs and policies will be studied by a Special Agricultural Advisory Commission, as I know it will by appropriate committees of the Congress. A non-partisan group of respected authorities in the field of agriculture has already been appointed as an Interim Advisory Group.

The immediate changes needed in agricultural programs are largely budgetary and administrative in nature. New Policies and new programs must await the completion of the far-reaching studies which have already been launched.

## IX

The determination of labor policy must be governed not by the vagaries of political expediency but by the firmest principles and convictions. Slanted partisan appeals to American workers, spoken as if they were a group apart, necessitating a special language and treatment, are an affront to the fullness of their dignity as American citizens.

The truth in matters of labor policy has become obscured in controversies. The very meaning of economic freedom as it affects labor has become confused. This misunderstanding has provided a climate of opinion favoring the growth of governmental paternalism in labor relations. This tendency, if left uncorrected, could end only by producing a bureaucratic despotism. Economic freedom is, in fact, the requisite of greater prosperity for every American who earns his own living.

In the field of labor legislation, only a law that merits the respect and support of both labor and management can help reduce the loss of wages and of production through strikes and stoppages, and thus add to the total economic strength of our Nation.

We have now had five years' experience with the Labor Management Act of 1947, commonly known as the Taft-Hartley Act. That experience has shown the need for some corrective action, and we should promptly proceed to amend that Act.

I know that the Congress is already proceeding with renewed studies of this whole subject. Meanwhile, the Department of Labor is at once beginning work to devise further specific recommendations for your consideration.

In the careful working out of legislation, I know you will give thoughtful consideration -- as will we in the Executive Branch -- to the views of labor, and of management, and of the general public. In this process, it is only human that each of us should bring forward the arguments of self-interest. But if all conduct their arguments in the overpowering light of national interest -- which is enlightened self-interest -- we shall get the right answers. I profoundly hope that every citizen of our country will follow with understanding your progress in this work. The welfare of all of us is involved.

Especially must we remember that the institutions of trade unionism and collective bargaining are monuments to the freedom that must prevail in our industrial life. They have a century of honorable achievement behind them. Our faith in them is proven, firm and final.

Government can do a great deal to aid the settlement of labor disputes without allowing itself to be employed as an ally of either side. Its proper role in industrial strife is to encourage the processes of mediation and conciliation. These processes can successfully be directed only by a government free from the taint of any suspicion that it is partial or punitive.

The Administration intends to strengthen and to improve the services which the Department of Labor can render to the worker and to the whole national community. This Department was created -- just forty years ago -- to serve the entire nation. It must aid, for example, employers and employees alike in improving training programs that will develop skilled and competent workers. It must enjoy the confidence and respect of labor and industry in order to play a significant role in the planning of America's economic future. To that

end, I am authorizing the Department of Labor to establish promptly a tripartite Advisory Committee consisting of representatives of employers, labor and the public.

Our civil and social rights form a central part of the heritage we are striving to defend on all fronts and with all our strength.

I believe with all my heart that our vigilant guarding of these rights is a sacred obligation binding upon every citizen. To be true to one's own freedom is -- in essence -- to honor and respect the freedom of all others.

A cardinal ideal in this heritage we cherish is the equality of rights of all citizens of every race and color and creed.

We know that discrimination against minorities persists despite our allegiance to this ideal. Such discrimination -- confined to no one section of the nation -- is but the outward testimony to the persistence of distrust and of fear in the hearts of men.

This fact makes all the more vital the fighting of these wrongs by each individual, in every station of life, in his every deed.

Much of the answer lies in the power of fact, fully publicized; of persuasion, honestly pressed; and of conscience, justly aroused. These are methods familiar to our way of life, tested and proven wise.

I propose to use whatever authority exists in the office of the President to end segregation in the District of Columbia, including the federal government, and any segregation in the armed forces.

Here in the District of Columbia, serious attention should be given to the proposal to develop and authorize, through legislation, a system to provide an effective voice in local self-government. While consideration of this proceeds, I recommend, in the meantime, an immediate increase of two in the number of District Commissioners to broaden representation of all elements of our population. This will be a first step toward insuring that this Capital provide an honored example to all communities of our nation.

In this manner, and by the leadership of the office of the President exercised through friendly conferences with those in authority in our states and cities, we expect to make true and rapid progress in civil rights and equality of employment opportunity.

There is one sphere in which civil rights are inevitably involved in federal legislation. This is the sphere of immigration.

It is a manifest right of our government to limit the number of immigrants our nation can absorb. It is also a manifest right of our government to set reasonable requirements on the character and the numbers of the people who come to share our land and our freedom.

It is well for us, however, to remind ourselves occasionally of an equally manifest fact: we are -- one and all -- immigrants or sons and daughters of immigrants.

Existing legislation contains injustices. It does, in fact, discriminate. I am informed by members of the Congress that it was realized, at the time of its enactment, that future study of the basis of determining quotas would be necessary.

I am therefore requesting the Congress to review this legislation and to enact a statute that will at one and the same time guard our legitimate national interests and be faithful to our basic ideas of freedom and fairness to all.

In another but related area -- that of social rights -- we see most clearly the new application of old ideas of freedom.

This Administration is profoundly aware of two great needs born of our living in a complex industrial economy. First: the individual citizen must have safeguards against personal disaster inflicted by forces beyond his control. Second: the welfare of the people depends on effective and economical performance by the government of certain indispensable social services.

In the light of this responsibility, certain general purposes and certain concrete measures are plainly indicated now.

There is urgent need for greater effectiveness in our programs, both public and private, offering safeguards against the privations that too often come with unemployment, old age, illness, and accident. The provisions of the Old Age and Survivors Insurance Law should promptly be extended to cover millions of citizens who have been left out of the Social Security System. No less important is the encouragement of privately sponsored pension plans. Most important of all, of course, is renewed effort to check the inflation which destroys so much of the value of all social security payments.

Our school system demands some prompt, effective help. During each of the last two years, more than 1-1/2 million children have swelled the elementary and secondary school population of the country. Generally, the school population is proportionately higher in states with low per capita income. This whole situation calls for careful Congressional study and action. I am sure that you share my conviction that the firm conditions of federal aid must be proved need and proved lack of local income.

One phase of the school problem demands special action. The school population of many districts has been greatly increased by the swift growth of defense activities. These activities have added little or nothing to the tax resources of the communities affected. Legislation aiding construction of schools in these districts expires on June 30. This law should be renewed; and, likewise, the partial payments for current operating expenses for these particular school districts should be made, including the deficiency requirement of the current fiscal year.

Public interest similarly demands one prompt specific action in protection of the general consumer. The Food and Drug Administration should be authorized to continue its established and necessary program of factory inspections. The invalidation of these inspections by the Supreme Court of December 8, 1952, was based solely on the fact that the present law contained inconsistent and unclear provisions. These must be promptly corrected.

I am well aware that beyond these few immediate measures there remains much to be done. The health and housing needs of our people call for intelligently planned programs. Involved, too, are the intricate matters of achieving proper federal, state, and local relationships; assuring the solvency of the whole security system; and guarding against its exploitation by the irresponsible.

To bring clear purpose and orderly procedure into this whole field, I anticipate a thorough study by an appropriate commission of the proper relationship among federal, state, and local programs in this whole field. I shall shortly send you specific recommendations for establishing such a commission, together with a reorganization plan defining new administrative status for all federal activities in health, education, and social security.

I repeat that there are many important subjects of which I make no mention today. Among these is our great and growing body of veterans. America has traditionally been generous in caring for the disabled -- and the widow and the orphan of the fallen. These millions remain close to all our hearts. Proper care of our uniformed citizens and appreciation of the past service of our veterans are part of our accepted governmental responsibilities.

## II

We have surveyed briefly some problems of our people and a portion of the tasks before us.

We have seen that the idea of individual freedom applies across the whole span of these matters -- from a foreign policy of world purpose to the daily needs of the aged, from an enforcement of economy in government to the development of our great river basins.

The hope of freedom itself depends, in real measure, upon our strength, our heart, and our wisdom.

We must be strong in arms. We must be strong in the source of all our armament -- our productivity. We all -- workers and farmers, foremen and financiers, technicians and builders -- all must produce, produce more, and produce yet more.

We must be strong, above all, in the spiritual resources upon which all else depends. We must be devoted with all our heart to the values we defend. We must know that each of these values and virtues applies with equal force at the ends of the earth and in our relations with our neighbor next door. We must know that freedom expresses itself with equal eloquence in the right of workers to strike in the nearby factory -- and in the yearnings and sufferings of the peoples of Eastern Europe.

As our heart summons our strength, our wisdom must direct it.

There is -- in world affairs -- a steady course to be followed between an assertion of strength that is truculent and a confession of helplessness that is cowardly.

There is -- in our affairs at home -- a middle way between untrammelled freedom of the individual and the demands for the welfare of the whole Nation. This way must avoid government by bureaucracy as carefully as it avoids neglect of the helpless.

In every area of political action, free men must think before they can expect to win.

In this spirit must we live and labor: confident of our strength, compassionate in our heart, clear in our mind.

In this spirit, let us together turn to the great tasks before us.

MEMORANDUM FOR MR. TOLSON

MR. BELMONT

DWIGHT D. EISENHOWER

The Attorney General called me today concerning the memorandum I sent him last week concerning a meeting attended by one of our Agents in which the experts on germ warfare decided to make a test of the New York subways and also the President's accommodations. The Attorney General said he talked to the President today and he had the same reaction which both the Attorney General and I did - that it was a foolish thing. I stated there was also an aspect about the ease with which that man got into the President's accommodations at the Commodore through some maid and if it could be done by him it could be done by anybody and anything could be planted in those rooms. I stated I was not sure to how careful the Secret Service is in going through those accommodations which the President has occasion to occupy. I stated it sounded like a "cops and robbers" show and if attempted it might get out through the various leaks which do occur and I stated I thought it would be a terrible story to have the President made a specimen in a laboratory examination. The Attorney General agreed and stated he would like to do whatever is necessary to stop it and wondered if our Agent could report back to this meeting that we thought it was a mistake. I stated I could have this done and we could see what the reaction is and if we needed word from a higher level my suggestion would be that he, the Attorney General, talk to the Secretary of Defense about it and have him issue the order. I stated we would indicate our concern about it and see if they would then drop it and if they would not I would let the Attorney General know so he could talk to the Secretary of Defense about it. The Attorney General said this would be fine.

Very truly yours,

PRESIDENT EISENHOWER HAS INVITED NEWSMEN TO REPORT TO THE WHITE HOUSE INCIDENTS WHERE THEY FEEL OFFICIALS ARE CHOKING OFF OR STRANGLING NEWS.

MR. EISENHOWER TOLD HIS NEWS CONFERENCE YESTERDAY TO BRING SUCH INSTANCES TO HIS PRESS SECRETARY AND HE WOULD ACT. THE QUESTION CAME UP WHEN HE WAS ASKED WHETHER HE INTENDED TO RESCIND OR AMEND AN ORDER ISSUED IN 1951 BY FORMER PRESIDENT TRUMAN WHICH DEALT WITH NEWS DISTRIBUTION BY FEDERAL AGENCIES.

THE QUESTIONER SAID THE ORDER, WHICH GAVE OFFICIALS AUTHORITY TO WITHHOLD INFORMATION WHICH MIGHT AID "POTENTIAL ENEMIES," IS REGARDED BY MANY NEWSPAPER EDITORS AS RESTRICTING THE FLOW OF LEGITIMATE NEWS.

MR. EISENHOWER SAID THAT IF ANY PRESS MAN HAS A SPECIFIC INSTANCE WHERE THE TRUMAN RULE HAS BEEN APPLIED TO WHAT THE NEWSMAN BELIEVES TO BE THE DETRIMENT OF THE PROPER FUNCTION OF THE NEWSPAPER WORLD HE SHOULD INFORM THE PRESIDENT'S PRESS SECRETARY.

While at the office of Dr. Hauge of the White House this afternoon, Dr. Hauge mentioned most favorably the Director's presentation this morning to the White House Staff. The comment came up in the discussion of a television program the President contemplates being on on June 3rd. Dr. Hauge had remarked that the President wants to get over the idea in the program that the administration is keeping the good things it inherited, for example, the Director and the FBI.

It was at this point Dr. Hauge, as an aside, stated Mr. Mullen, Mr. McGuire, Mr. Arnold Lee of the Advertising Agency handling the President's program and Mr. Steven Benedict of Dr. Hauge's staff that the Director had made an excellent presentation at the White House this morning; that the Director does a terrific job of selling the Bureau, its program and its objectives and that when he had finished one could not help but have implicit confidence in the Director and the Bureau.

I thought the Director might like to know of Dr. Hauge's comment.

FROM : A. H. Belmont

SUBJECT: BERMUDA CONFERENCE;  
SECURITY FOR PRESIDENT EISENHOWER

*Dwight D.*

(b)(7)(C)

Pursuant to instructions, [redacted] of the Liaison Section attended a conference on May 25, 1953, in the office of Colonel Carroll, the President's Liaison Officer with the Military. Also in attendance were Major General Joseph Carroll, OSI; Captain D. C. Hamberger, ONI; Mr. U. E. Baughman, Chief, U. S. Secret Service; Mr. James Rowley, Chief of the White House Detail, U. S. Secret Service; and Mr. Winston Scott, CIA.

The purpose of this meeting had to do with security precautions to be taken in connection with the proposed conference to be held in Bermuda sometime in June between President Eisenhower, Prime Minister Churchill, and the French Prime Minister. It is expected that the date will be subsequent to June 14 after the French name a new Government.

Chief Baughman asked if the FBI would check against its files the names of all the passengers and crews of passenger ships, airplanes, and freighters, who have left the U. S. for Bermuda since Wednesday, May 20, 1953, the date the conference was announced. He further stated that this would be a continuing proposition up until the time the conference is over.

(b)  
(7)  
(C)  
(b)  
(7)  
(D)

[redacted] pointed out to the group the loopholes that exist from checking the FBI files where the check is based on just the name and partial address and that such a check is not practical. [redacted] further pointed out that a large majority of the tourists going to Bermuda in May and early June would have already returned to the United States by the time the conference begins. Chief Baughman requested that [redacted] discuss this matter at his Headquarters to determine how this request could be logically handled.

RECOMMENDATIONS: INDEXED-34 RECORDED-34 62-81742-77-

It is recommended that through Liaison we advise Chief Baughman that the Bureau is willing to cooperate in any way possible for the safety of the President; however, it appears that:

1. Most of the tourists going to Bermuda in May and early June would have already returned to the U. S. by the time the conference begins and, therefore, the checking of these names would be a waste of time.

Mr. Herbert Brownell  
Attorney General of the U. S.  
Washington, D. C.

Dear Sir:

I listened to Glamour Boy's program in which you had a small part, which you must know was so much babble.

I have no confidence or trust in Glamour Boy Eisenhower. He was brought into our Nation's affairs by the efforts of conniving lies and influence of the International Banking interests of which the Heb Wall Street Bankers are a unit.

Seeing their rotten work at the Republican National Convention, carried out by Pipsqueak Dewey, you, Aldrich and other dupes, makes an American sick. I never thought our Republican Party could or would ever sink to such low level. Herbert Lehman said in substance "We put him over." The Hebs and your associates and the New Deal and Truman gang were and are satisfied. One wonders why your change? Your association with Alf. Landon never taught you such low levels in political matters.

Now, in your attempt to tell the people of this Republic of what you are going to do, there was little sense. Why there is no sense in what you said is shown by your own words. In substance, you and Glamour Boy said that things you did would be brought into the open; out from behind closed doors. What you said is that after you have made settlements with tax dodging crooks, you will tell the nation's people about it. Why not tell the people who the crooks are; the amount they have cheated the government out of and that they will pay it all and go to jail besides. That is what you will do to any of us who work on a small salary, should we fail or refuse to pay our small tax. Mine amounts to \$240.00 to \$278.00 per year. That is as much as a man 70 years can pay. He pays it because it is deducted from his weekly pay check.

Now who makes up the differences between these unfair, unjust and doubtful settlements Mr. Humphrey and you make? The small salaried people pay the tax that you donate to men who are not entitled to any adjustment. Settlements with crooks, such as have been made and what you and Mr. Humphrey make are short of your oath to represent the people. I cannot believe that you or Glamour Boy have, as yet, represented the people honestly nor do I believe you will. Neither one of you wear the honor of a statesman. You both are politicians in the lowest sense of the strict use of the word.

Would that we had men of ability and honor such as is found in Secretary Benson, in our affairs of government.

RECORDED - 6

62-81742-74

JUN 16 1953

The people of the Nation have little to hope for. We thought we had rid the Whitehouse of Truman and in nonfeasance, malfeasance and his sell-out to unsavory interests. Now, we have a glamour boy following his policies, a man who told the World that "I am one twelveth American" and he is in the office of President of the United States.

The glamour boy said "We hav. 8 to 1 in support of our program." That 8 to 1 if the percent is correct, did not come from Americans, but from "One Workers" New Dealers, Fair Dealers, Wall Street and the like.

I am over the country from Pennsylvania to Utah and the Dominion and the Gulf throughout the year in an effort to make a meager living. I meet and talk with hundreds of people, mostly business men. I cannot refrain from holding Glamour Boy's promises up to those with whom I talk and compare them with his doings and inconsistent advocacies which, with his illconsidered off the cuff statements of matters he knows not anything, makes him unworthy of confidence. No less can be said of you, because you are his boy and you must do his biddings.

Respectfully yours,

On June 15, 1953, Earl "Bud" Eisenhower, nephew of the President, and Ross Melvin, Jr., a relative of the President's wife, were assisted by this office in connection with their travel through Chicago.

The youths, both 17, arrived two hours apart at different train stations. They were met on arrival and introduced to each other as they had not previously met. Thereafter, they were taken to lunch and on a tour of Northwestern University campus and the Chicago Museum of Natural History. In line with "Bud" Eisenhower's request, they also visited briefly at the Elks National Memorial.

They departed on the Olympian Hiawatha of the Milwaukee Road at the Union Station at 4:30 CDST and will arrive at Tacoma, Washington, June 17, 1953, at 11:45 AM. SAC R. D. Auerbach, Seattle, who was previously conferred with on this matter, was advised of their itinerary.

Mr. Clegg telephoned to say he has heard further from Quantico.

The President did not get to view the FBI range demonstration. The three Bureau men who handled the Range demonstration, however, were invited to the President's Barbecue. [REDACTED] When they were introduced to the President as FBI men he immediately started to talk with them about guns, techniques and such related matters and kept them with him for a half hour, he doing all of the talking. Mr. Clegg said the agents felt that they were monopolizing too much time but they could not help themselves as the President did all of the talking.

Mr. Clegg said everything went off extremely well; no casualties and no incidents.

You may be interested in the following information supplied in confidence by [REDACTED] to Mr. Roach concerning the President's Staff Reception which is to be held this afternoon between 5:30 and 7 p.m. at the White House. [REDACTED] that the President had been recently advised that he had been in the White House for 7 months and had not yet met his entire staff. The White House staff, [REDACTED] is composed of the Executive, Administrative, Clerical, Messenger, Secret Service, and White House police groups. The Executive group is headed by Governor Sherman Adams. The Administrative group is headed by Mr. Roger Stefan, the Clerical group by Mr. William J. Hopkins-under which is the Messenger group-while the White House Secret Service Detail is headed by Mr. Rowley with the White House police under his jurisdiction.

With reference to the Reception the President first indicated that he was not interested in meeting the Messenger, Secret Service, or White House police groups as "he didn't want to shake hands with any niggers." It was later discreetly called to the President's attention by secretaries James C. Hagerty and Thomas E. Stephens that from a public relations viewpoint it may be to the Administration's advantage to have the colored Messenger group present. [REDACTED] the President reluctantly agreed to this but stated he still did not desire to meet the White House police or Secret Service groups.

[REDACTED] stated that the Reception is to be held in the East Room where the President and Mrs. DWIGHT D. EISENHOWER, together with his Service aides (Army, Navy, and Air Force) will be present.

Dear Mr. Hoover:

I am herewith enclosing a copy of a letter which I am sending our President, hoping that he may stop and consider. The American people elected him to do a job. We feel that he is being misguided, and that we are not getting the fulfillment of his campaign promises.

(b)(7)(C)

At the suggestion of [REDACTED] whom I know well personally, and who is doing a Herculean job against communism, I am sending this copy for your records.

I also want to personally express my sincere gratitude to you, Mr. Hoover, and your organization. You are doing a magnificent job. Keep it up. With the government so riddled with communists and sympathizers, it is wonderful to know of your patriotic and untarnished record. Without your staunch efforts to keep America safe for Americans, we would have been sabotaged to destruction long before now. We hope that the American people can be awakened from their lethargy, and start fighting for our Constitution and the sovereignty of our great nation. We must not allow the traitors to take over.

With Kindest Regards and High Regards,

Sincerely Yours,

The President,  
White House,  
Washington, D.C.

Dear Mr. President:

I was heartily in favor of your nomination and election. I voted for you, with the high hopes that you would clean house in Washington, and give America a chance. I still feel that you are a man of integrity, who could be the greatest man this world has ever seen, providing you admit of your past mistakes and alliances, such as occurred as result of Yalta agreements and other Rooseveltian entanglements. If you will keep your campaign promises, and sever all relations with Rockefeller's Council of Foreign Relations, and truly lead this nation back to sanity and away from destruction internally as well as externally, then America can be saved as a sovereign nation.

Reconsider, Mr. President, your course in history. Are you going to be just another Truman or a Franklin D. Roosevelt, to whom you owe much personally, who were ruled by the same Internationalists? That the American people are becoming awake and aware of many of the truths which have been concealed for a long time, is an established fact. Some day history will record you either as one of our greatest Presidents, or else you will be revealed as one, who sold us down the river. Which will you be? Under the plan of the Internationalists, we will be losing our constitutional liberties and freedoms. You have the choice to make yourself another Abraham Lincoln, or, may Almighty God forbid, another tool of the Internationalists, such as Franklin D. Roosevelt.

The American people are becoming disgusted with your coddling the Internationalists and communists. Many people are beginning to know of your one-time membership in the Council of Foreign Relations, and your close association with Alger Hiss at Columbia University as President of the Carnegie Endowment for International Peace, and that you are ruled by them. Are you still a member of the CFR? Be a man of your word, admit your mistakes and come clean. The American people will forgive everything, if they know you are really sincere. This Korean war could have been stopped a long time ago, according to reports from men who were over there, and who were Generals in the U.S. Army. Quit killing American youth for the sake of Internationalists lust for oil and power.

ENCLOSURE

62-81742-79

CC  
(b)(7)(C) [REDACTED] CIB  
(b)(7)(C) [REDACTED] (b)(7)(C) [REDACTED]

Millions of Christian Americans are shocked by your comment on Matthews article in American Mercury magazine, which article is neither generalized or irresponsible. It is based on documented facts. You are saying, in effect, just as the minority of collaborators want said, "traitors are safe in America if they wear the clerical robes," or if they belong to Rockefeller's Council of Foreign Relations.

Now, Mr. President, the American people will be behind you 100%, providing, you don't try to deceive them any longer. The people are becoming awake and aroused at your actions. We object to your actions in pressuring Congress in regards to the Excess Profits Tax extension. We can't support your ideas in regards to the Russian-controlled United Nations. Either we abolish the veto as so frequently used by Russia, or else Russia should be thrown out of the U.N. If this is impossible, we should get the United States out of the U.N. Let us end this hamstrung war by a military victory, instead of a stalemate armistice, which does nothing but continue the communists and internationalists intentional "cold war".

I am still a believer in you as a true and patriotic American, who can save America from the Internationalist and world-wide communistic conspiracy. Be a man of principle, just as Ex-President Hoover was, when he decided against taking the U.S. into the proposed Internationalists war, which Franklin D. Roosevelt was only too eager to do. You must release yourself from their control.

I hope that I may have your personal answer to my inquiries in this letter. Just an answer by one of your secretaries, unless personally signed by you, will not do. With all due respect to your high office, and its high purpose, which is to uphold and protect our Constitution and national sovereignty,

I remain,

A sincere, loyal, but worried American

"The President and Mrs. Eisenhower plan to hold the usual state receptions this fall and winter. For use in preparing invitations to these receptions it is necessary for us to call upon the various departments and agencies of the government to furnish us with the names and addresses of their higher ranking personnel. Therefore, will you please send me a list, at the earliest practicable date, using the following as a general outline of the persons and information we desire?

"The names, official titles, and local home addresses of the officials in your department holding presidential commissions, the assistants to the Attorney General, and the chiefs of bureaus or divisions, together with the names of members of their immediate families actually residing with them in their homes in Washington who are eighteen years of age or older.

"Because of the limitation of space at The White House and the tremendous number of government officials in Washington, the President has asked that the lists be kept as low as possible."

Will you please send me at the earliest practicable date, a list as specified of the officials in your Division (or Bureau) to whom these invitations should be sent.

Dwight D. Eisenhower

I am writing you at this time, at the suggestion of Senator McCarthy. I am very strenuously opposed to giving aid to England and other countries and allies, who insist on trading with outlaw Red China now, or any time in the future. As long as one single American boy is held prisoner by the Red Chinese, no trade should be allowed with them. I am in favor of complete boycott of the Red Chinese and North Koreans, until they are completely submissive to our demands. In this cold war with Russia and her satellites, everything must be done to restrict trade with them. Any other method is appeasement. You, Mr. President and your Secretary of State, are going back to the old Truman-Acheson foreign policy. We have had enough of that. You were elected to lick communism, not to appease it, or coddle the communo-socialist English government, who have been dragging their feet all along, and not doing their fair to fight communism. Even now, England and India are doing more to aid communism, than to annihilate it. There is our national honor, as long as we allow Chinese Reds to keep our men prisoners and to practice atrocities on them and to murder them. The American people demand that you do everything in your power to release these men, otherwise your administration is not fit to have the respect of the American people. Because of this, the American people are getting behind Senator McCarthy and his views more and more. I suggest you heed his words, and show us what kind of an American President you are. We want action and leadership in repelling communism. So far you are not doing as you so faithfully promised before your election.

On July 28, 1953 I wrote you a letter, and asked for an answer from you personally. To date I have received no reply. I am sure you have had ample time to answer my inquiries. I am still expecting your reply to some very important questions. I sent a copy of this letter to the FBI. Here are some additional questions I would like answered at this time.

1. Are you still a member of Rockefeller's Council of Foreign Relations?

2. What was your relationship with Alger Hiss at Columbia University, and with the Carnegie Endowment for International Peace, when Alger Hiss was President of that organization? What was John Foster Dulles's relationship in these organizations with Alger Hiss and the Council of Foreign Relations?

3. Why did you allow the Russians to take over Berlin, and other portions of Eastern Europe, when General Patton and others were so opposed to letting the Russians in first? What about the thousands of people, who rather committed suicide, than be released to the Russians by the American army? You know about these atrocities, and did nothing to prevent or stop them. Do you not feel a sense of extreme guilt in allowing the Russians to kill many of these people, or to make slaves of them? You, President Eisenhower, could have rebelled against such inhumanities, just as did General MacArthur, and not obeyed such orders from your superiors and the UN. The American people demand explanation of many of your past actions.

4. Why are you backing the United Nations, when you know that it lost the Korean war for us, the first in American history. It did not allow us to win, but instead the Russians used the United Nations to pin-point our armies, so that the Reds could annihilate them. Why were we not allowed to win this war?

5. What is the organization which is guiding and controlling most of your actions, now that you are President? Is it the AIL of B'nai B'rith, or the Council of Foreign Relations? Or is it both? Neither one has the good of America at heart. It was very degrading to the office of the President of the United States, for the President to be seen and heard over television the other night, sponsored by the AIL, and receiving and accepting their "Democratic Legacy Award". You have stooped to a new low, when you accept the awards from such red-infiltrated organizations. Both organizations, as shown by documented proof, are subversive in character, since they have been practically taken over by the Reds in this country. Is this the type of President the American people voted into office as a CHALKER? Not much change from the preceding twenty years.

6. Why did Secretary of State John Foster Dulles, not allow himself to be investigated for loyalty to the U.S. after he suggested that his entire State Department personnel would be checked? Was it because of his relations to traitor Alger Hiss? He at first stated, he would be the first to be cleared, but after the question in regards to Alger Hiss came up, he immediately stopped any further investigation of himself. Could it be that John Foster Dulles, the great churchman, also has a skeleton in his closet?

(b)(7)(C)

(b)(7)(C)

(b)(7)(C)

3.

Now, Mr. President, there are a few questions which in my mind, need definite answers from you, if we, the common people are to have confidence in you and your administration. I have waited four months for a reply to my letter of July 28th. I hope that I may now have the courtesy of a reply.

I am also adding the following statements for your earnest consideration.

The Bricker Amendment must be passed by Congress in its original form, and not as amended by Knowlton.

Communism must be outlawed in the U.S.

We must get out of the United Nations, unless it is drastically changed to exclude Russia, so that the peaceful nations can accomplish their avowed objects.

Congressional Investigating Committees must be assisted in their heroic work. Any true American has no reason to hide behind the Fifth Amendment. You, Mr. President, can strengthen the position of these committees by discouraging the red propaganda and sniping against these committees that is so prevalent today. Most important of all, our Constitution must be protected so that no United Nations Treaty can supersede it.

Our national sovereignty must be firmly and safely guarded against all "One-World Government" internationalists.

Yours For Better America,

A loyal American and Patriot,

TO : MR. A. H. BELMONT

DATE: February 10, 1954

FROM : MR. J. A. SIZOO

SUBJECT: ~~X~~ PRESIDENT'S TRIP TO INDIO, CALIFORNIA

DWIGHT D. EISENHOWER

After checking and finding no record in the Bureau of having received information from San Diego concerning this matter, at 10:45 A.M. today I talked with SA [REDACTED] (b)(7)(C) who was acting in charge of the Office, and asked that he determine if the Office had been contacted by a representative of Secret Service and, if so, why the Bureau had not been fully advised.

At 11:30 A.M. SAC Willis called back and stated that he had made a complete check of the indices of the San Diego Office, had contacted all Headquarters City Agents, as well as the Resident Agents at Indio, Palm Springs, and Riverside, California, and developed no information indicating that anyone in the Office had been contacted by Mr. Rowley or any other representative of Secret Service concerning this matter. He also checked with the Los Angeles Office and received no information indicating that Secret Service had made a contact with that Office concerning the President's contemplated trip to California. While handling this matter with San Diego, SAC Willis was furnished with the information appearing in the attached memorandum concerning the contemplated trip of the President to Indio, California. He was also informed that he should keep the Bureau advised of any significant developments or requests for assistance from Secret Service in connection with this matter.

**ACTION:** In view of the above, Liaison Agent [REDACTED] will recontact Mr. Rowley in an effort to determine what Bureau representatives on the West Coast were contacted in connection with this matter.

FROM : A. H. Belmont

SUBJECT: PRESIDENT'S TRIP TO INDIO, CALIFORNIA

DWIGHT D. EISENHOWER

(b)(7)(C) Mr. James J. Rowley, Chief, White House Detail, Secret Service, confidentially informed [redacted] this afternoon that the President is taking an unannounced trip to southern California during the week of February 15, 1954. He is planning to stay at a private lodge in the desert near Indio, California. Indio\* is approximately 25 or 30 miles from Palm Springs, California. Mr. Rowley commented that he understood that the Bureau had a Resident Agency at Palm Springs and that perhaps he may be calling upon our representatives for help if the occasion arises in that neighborhood. Rowley indicated that the President probably would be in Indio for approximately a week to 10 days. Mr. Rowley also advised that this weekend the President will spend a few days at the plantation residence of Secretary of the Treasury Humphrey.

Mr. Rowley stated he desired to call these matters to the Bureau's attention in the utmost confidence as the California trip is not to be announced prior to the President's arrival there.

The San Diego Office is not being informed of this visit as Mr. Rowley indicated that he, on an advance trip to the west coast, had already been in touch with the Bureau's Office.

ACTION:

None. For your information.

Did they notify me.

(b)(7)(C) Mr. Sizoo's memorandum to you of February 10, 1954, recommended that [redacted] recontact Mr. James J. Rowley of the White House and determine from him the identity of the Bureau's representative on the west coast that Rowley had contacted on a previous trip, the indication being that Rowley had talked to Bureau representatives in the San Diego-Los Angeles area and that the Offices had failed to notify the Bureau.

(b)(7)(C) As requested, [redacted] recontacted Mr. Rowley on February 17, 1954 (he has been out of the city until recently) and inquired of him the identities of the Bureau representatives with whom he had discussed the President's trip during his advance work on the trip a couple of weeks ago. Mr. Rowley stated that perhaps he had previously misinformed [redacted] as he had in fact traveled incognito and had not made known to those outside of Secret Service the purpose of his trip. Rowley stated that he had been placed in contact with representatives of a number of Federal, state, and local organizations but that he does not recall the names of the Bureau representatives but relied upon the local Secret Service to handle all details.

## ACTION:

In view of the fact that Mr. Rowley cannot determine the exact identity of a Bureau representative who may have been contacted, it is recommended that no further action be taken on this matter.

Jack Martin called from the White House. He has a personal problem which is of some consequence to him. He stated that somebody wrote a letter to the President on the stationery of the [redacted] and signed the letter [redacted]. The letter was exceedingly critical of the President and nasty in tone. It did not contain any threats. It caused considerable concern around the White House and after some discussion of the higher echelon prior to giving it to the President, Martin was consulted. He knew that [redacted] would not write such a letter even if he thought as the letter stated and he happened to know that the entire [redacted] was friendly disposed to the President. He checked with [redacted] who flatly denied writing such a letter and that such a letter was a forgery. Martin was wondering if we could run this down and find out who wrote the letter because such a letter was simply not good for the country and there are enough evil forces at work as it is.

I told Jack that since the letter did not contain any threats I frankly did not see any basis whereby we could undertake to make such an investigation; however, I would like to mull it over a little bit and I would let him know. The letter has not been shown to the President as yet. The possibility of finding out who wrote the letter could be a long involved, if not remote, process from the standpoint of success. I do not think we should get into this.

Martin wondered if there would not be some statute governing this having to do with the U. S. mails. I told him that if there were, this would not be under our jurisdiction, but nevertheless I would like to check on it. If approved, I will advise Martin there is no way we can undertake this.

Dear Sir:

Permit me, one of your sub-alternates, to congratulate you on your stand in both national and international problems.

God being willing, we will some day have a better world in which to live. Too many people on this earth believe that world owes them a living, which was not the intent of our Maker.

Mr. Holloman	✓
Miss Gandy	✓

I have just been advised by ED EISENHOWER that the trip to Walla Walla to see the President is off.

Apparently TOMMY STEVENS of the White House staff called ED last night and advised him that in the meantime since the original arrangements were made the President has accepted an interim invitation to stop off at Missoula, Montana, to dedicate some forestry project, and accordingly he will have to have supper there rather than in Walla Walla.

Accordingly the President will be in Walla Walla from only about midnight tonight through breakfast tomorrow morning and the dedication of the McNary Dam and will go on then directly to Portland for another engagement.

ED tells me that there will be other opportunities in the immediate future in connection with visiting with the President but has not elaborated on the situation.

Dear Mr. Kelly:

In May 1954, you acknowledged one of my letters, so I am writing to you again.

This may or may not be of importance - but here it is.

is a person <sup>known to</sup> I have written to your department several times.

Lately she has been to hear a "Merkist" speak - and this week - and last has been spreading the following rumor -

"Mrs Amy Eisenhower is an alcoholic. The president has had this problem with her all their married life. Her illnesses are not illnesses but alcoholism - There is great ado in Washington at State dinners because she must be seated next to the president so he can prevent

her from drinking" etc etc.  
Of it's true ok. If not, it is  
a very mean rumor.

Maybe it's worth nothing - but  
she still has as her. fake

They are the ones  
who have been outspoken right along  
in their attitudes.

Take it for what it is worth.

Very truly yours, C

President Eisenhower's visit to Russia. Please Mr Hoover dont  
let him go, at last we have a wonderful man in the white house  
so lets keep him safe. The Russians could kidnap him & what  
could we do. My friends say they would not dare. Remember  
Perl Harbor. Every one said Japan would not dare.

Thank you & may God bless & keep you & President  
Ike.

Sincerely

RE: KAY SUMMERSBY, aka  
 Mrs. Reginald H. Morgan, Kay Morgan

*See addendum on Page 2. Encl. 11/23/58*

*(b)(7)(D)* [redacted] advised 9/22/55, that captioned individual, a former WAC officer who was assigned as secretary, aid and chauffeur to President Eisenhower, while he was European Commander, was [redacted] under an assumed name. The Director indicated "See if we can discreetly get the name."

*(b)(7)(D)* [redacted] contacted re an attempt to procure name assumed by Summersby. He later called back, 9/27/55, and advised his [redacted]

*(b)(7)(D)* [redacted] did not reveal interest of FBI in matter and it has been indicated to him that interest in this stems from personal curiosity and has no connection with the FBI.

Bureau files reflect little concerning Summersby. She was attacked by one Marion Bryant, Negro, 2/12/47, at WAC Officers Quarters, Hamilton Field, California. Subject tried and convicted of intent to commit rape and sentenced to 15 years imprisonment. Summersby married on 11/20/52 to Reginald H. Morgan, of New Canaan, Connecticut, a Wall Street broker. She is currently 46 years of age, born in Ireland and served in British Armed Forces before becoming a WAC Captain in U. S. Army Auxiliary. While President Eisenhower was Supreme Allied Commander in Europe, Summersby served as confidential secretary, aid and driver. In 1948, she wrote and published a book entitled "Eisenhower Was My Boss."

Summersby has been married twice. Her first marriage ended in divorce in England, in July, 1943, when her husband, Gordon Summersby,

brought charges of adultery. The third party involved was not mentioned.

Summersby was naturalized 1/19/51, in New York. Her occupation on various records includes that of saleslady and housewife. Her address prior to marriage to Morgan was 155 East 49th Street, New York City.

Washington Field Office has made discreet check [redacted] and has learned no individual is registered there under name of Kay Morgan, Mrs. Reginald H. Morgan, or Kay McCarthy (maiden name.) Other variances were checked with negative results. *Born 11/23/08 Ireland*

The New York Office made a pretext telephone call to current residence of Reginald H. Morgan. There was no answer. A second attempt will be made during the evening hours.

All checks mentioned above were made with complete secrecy and it is felt that no interest has been aroused on the part of outsiders concerning this matter. You will be advised of the result of New York's pretext call they will make during the evening hours.

Respectfully,

*L. B. Nichols*

ADDENDUM: [redacted] fc, 9/28/55

ASAC Simon advised at 5:12 p.m. that this afternoon second pretext call was made to residence of Reginald H. Morgan and Mrs. Morgan (Kay Summersby) answered telephone. Conversation was carried on under pretext to some extent and Mrs. Morgan was most pleasant. There was no information received which would indicate whether she had recently been in Washington or not.

9/28/55

Article appeared in the New York Times for Friday, 11/21/52, page 22, column 8. Kay Summersby, wartime secretary to General Dwight D. Eisenhower, President-elect, was married yesterday to Reginald H. Mr. Morgan, 47, had been married twice before. His first wife died and his second marriage ended in divorce. (end of article.)

**MORSE FOR PRESIDENT!! FEARLESS, FAITHFUL MORSE!!** Back in '52 Eisenhower was no sooner "elected" than W M instantly said "he fooled The People to win his election"!! NOW the same fearless, faithful MORSE say Eisenhower is forging an "economic fascism" against The People - the depravity of one performance in the depravity of the other!! Fooling The People to forge fascism against them is the very pattern of Adolph & Benito all over again but badfaith against The People is not the American Way of Life!! Guile with a grin is no qualification for President of these United States & THE AMERICAN PEOPLE will not be fooled by any such badfaith!! Newberger's LARCENY AT HELLS CANYON cries aloud for MORSE at that CANYON & in our White House!!! This "hero" with a grin, in all his guile, has a healthy fear of MORSE whose stride & stature, character & integrity, standing & goodfaith are AMERICAN to the core !! VOTERS will go for MORSE with thundering shout of joy & make Gettysburg a last retreat for guile & badfaith!!!  
**SIC SEMPER !!! MORSE FOR PRESIDENT !!!**

Dear Mr. President:

I cannot find words to adequately express my appreciation of your very kind and thoughtful letter of November 18, congratulating the Federal Bureau of Investigation upon bringing to a successful conclusion its investigation of the United Air Lines crash at Longmont, Colorado.

My associates and I in the Federal Bureau of Investigation certainly treasure your words of commendation. I believe I value them even more because I realize the burdens which are upon you, and for you to take time out of your busy schedule to write the letter you did means a great deal to me, both officially and personally.

We of the Federal Bureau of Investigation are particularly happy over the recovery which you have made and I know that each one of us prays that it will continue until you have been granted a "full pardon" by your doctors.

SUBJECT: VISIT OF PRESIDENT TO PUERTO RICO

*DWIGHT D. Eisenhower*

On 2-16-56 Mr. James Rowley, Chief of the White House Detail, U.S. Secret Service, advised Mr. Bartlett of the Liaison Section in extreme confidence that there is a possibility that the President may go to Puerto Rico on March 10-11, 1956, to attend a meeting of the Military Joint Chiefs. He stated that this meeting will probably be held within the confines of a military installation, possibly an air base.

Mr. Rowley asked that this information be held closely within the Bureau and that no action be taken at this time. He stated that if the trip materializes for the President, he will get in touch with the Bureau so that we can alert the San Juan Office.

EISENHOWER

Dear Mr. Hoover:

A while back I was amazed to hear Drew Pearson say or say that President Eisenhower would not run, even though he said he would, for President again. His amazement increased when the President said he felt so well he would be quite active in his campaign.

~~EXP. 12 1956~~

I remember, a few months ago, seeing an article in US News and World Report on University training provided by Russian Communists to train their agents how to secretly kill and maim their opponents.

I think that the Communists might prefer to not have Eisenhower run, also from that experience.

(b)(7)(C) While discussing another matter with [redacted] of Senator McCarthy's office, [redacted] referred to the book, "The Inside Story" by Robert J. Donovan and to that portion on page 341 which discusses the background of the Celler investigation. The paragraph in question as taken from the book states,

"Discussing the background of the Celler investigation, Brownell digressed into a situation he had uncovered in the General Office. When the Attorney General investigated the failure of the [redacted] to the F.B.I. on questionable activities by a certain clothing manufacturer, [redacted] discovered that some of the G. A. O. staff had been instructed by McCarthy to hold back such information until McCarthy felt the right time had come for producing it. Sherman Adams remarked dryly that the G. A. O. staff situation was being corrected."

(b)(7)(C) In connection with this paragraph, [redacted] stated the G. A. O. was alarmed about this and advised Senator McCarthy's office that nowhere in G. A. O. files are there any memos or directives to show that any instructions were given orally or in writing by Senator McCarthy to hold back information from the FBI until McCarthy felt that the right time had come to produce it nor could anyone handling the Celler investigation at G. A. O. recall any such oral instructions from McCarthy. [redacted] advised that there is nothing in the files of the Committee to show that Senator McCarthy had ever instructed G. A. O. not to give the FBI any information and that there is no one on the Committee that knew of any such instructions. [redacted] Senator McCarthy felt that somebody should ask Brownell to explain just what he meant because there is certainly nothing, either in the Committee's records or at G. A. O., to indicate that any such instructions were given by Senator McCarthy.

(b)(7)(C) [redacted] advised that he personally handled the Celler investigation and when there was a change in the Administration of the case the whole file was turned over to young Kennedy as counsel of the new reform committee and that he had no recollection or any reason to suspect that any such instructions had ever been issued by Senator McCarthy.

FRAUD AGAINST THE GOVERNMENT  
BRIBERY  
CONSPIRACY

*Dwyer*

Reference is made to my memorandum to you dated July 8, 1956, concerning statements appearing in the book by Robert J. Donovan entitled "Eisenhower: The Inside Story." These statements indicated that the Attorney General investigated the failure of the General Accounting Office (GAO) to report to the FBI on questionable activities of a certain clothing manufacturer and that the GAO staff had been instructed by Senator McCarthy to hold back such information. As I pointed out in the July 8, 1956, memorandum, Joseph Campbell, Comptroller General, had requested clarification from this Bureau regarding the statements appearing in the Donovan book.

Comptroller General Campbell has been advised that the question as to whether the FBI could or could not clarify the statements in the Donovan book is academic; that, as a matter of propriety, this is something which should be left to the Attorney General. Mr. Campbell stated he understood and intended to contact the Attorney General in the next few days. Campbell commented that he had checked and had determined that the McCarthy Committee in 1954 furnished information to the GAO concerning [redacted] and asked for a GAO investigation. When this investigation indicated possible criminal activity, the GAO went to the committee indicating that the matter had proceeded to the point where it should possibly be referred to the Department of Justice. The committee indicated to the GAO that it would take care of the matter. Therefore, according to Campbell, the GAO's hands were tied and they could take no further action. This statement is similar to information furnished to you by this Bureau in a memorandum dated July 11, 1955, which was confidentially furnished by Mr. William L. Ellis of the GAO.

Campbell has also indicated to a representative of this Bureau that several days prior to the July, 1955, Cabinet meeting on which the comments in the Donovan book were based, Sherman Adams called him and stated that he had received information that a GAO employee might be personally involved in an inquiry being made by GAO. Campbell said he would check into it and if true, would see that the employee was removed from any work on this particular case. Campbell stated that the statement by Sherman Adams in the Donovan book might be based on this conversation.

This is to advise the Attorney General's reply to Senator John L. McClellan, furnished by Rogers 7/6/56, requesting Bureau comments, has been reviewed and statements therein are in accord with the facts as known to this Bureau. Memorandum so advising Rogers enclosed.

This concerns a statement in Robert Donovan's book "Eisenhower: The Inside Story" wherein the Attorney General is quoted at a Cabinet meeting concerning Senator McCarthy instructing General Accounting Office (GAO) to withhold information concerning clothing contractor from the FBI.

The proposed letter to Senator McClellan, after identifying the remarks in the Donovan book, furnishes facts known to the Department concerning this matter. The letter highlights the dates of the committee hearings, discusses information developed by the committee indicating a criminal violation, and outlines the Department's handling of this matter, including investigation by the Bureau. The letter further indicates that the Department made arrangements with the Comptroller General in 1955 to have allegations of Fraud Against the Government referred to the FBI by GAO promptly. The letter concludes that because this understanding with the Comptroller General would preclude a repetition the subject was carried no further. Specific references to the Bureau contained in the letter are set out below, together with pertinent facts from the Bureau files. **62-81742-**

1. On page 2, the first full paragraph states in part "neither the FBI nor the Criminal Division of the Justice Department had any knowledge prior to the opening of the Subcommittee's public hearings on 5/18/55, of the facts or allegations suggesting possible bribery on the part of Government civilian and military personnel and had not investigated same."

In this matter general information was furnished by [REDACTED] Senate Investigating Committee, on a highly confidential basis 3/29 and 4/6/55. To date all 1956 matter inquiries were conducted by Philadelphia and New York. New York interviewed [REDACTED]

Memorandum to Mr. Rosen

In the meantime we contacted GAO who advised some investigation had been conducted, but committee clearance would be necessary before the results of that investigation could be furnished to us. You will recall that Robert Kennedy on 5/11/55, refused to furnish information developed by GAO or the committee until committee hearings then scheduled for 5/18/55, were completed.

Inasmuch as we only had general information and not the specific allegations, and sources thereof were denied us by the committee at that time, the matter was referred to the Criminal Division for decision as to whether the investigation should proceed or should be deferred pending completion of the committee hearings.

2. On page 2, the second full paragraph reports the Criminal Division requested appropriate investigation on 6/6/55. We did receive instructions by memorandum from O'neil 6/6/55, to institute investigation.

3. On page 2, the third paragraph reflects that in the course of its investigation the FBI learned that a number of witnesses had been interrogated by GAO as early as the Fall of 1954.

Reports were furnished to the Department [redacted] that [redacted]

Ellis, Chief of Investigations of GAO, that GAO had originally inquired into this matter, had developed information indicating illegal activity and had gone to the committee advising them the investigation indicated criminal violations. It also sets out that Senator Joseph McCarthy had told GAO not to turn the matter over to the FBI.

It is also noted that on 6/29/56, we advised the Attorney General we considered it proper to disclose [redacted] identity in the event he considered it necessary to answer any challenge of his personal or official reputation. However, it was suggested that in view of [redacted]

STATUS OF CAPTIONED INVESTIGATION

In this matter which was handled as a special, nine subjects have been indicted in the Southern District of New York. One subject has plead guilty and the eight remaining subjects are scheduled for trial 9/10/56.

RECOMMENDATION

For your approval, there is enclosed a memorandum to Rogers advising that we have reviewed the proposed letter to Senator McClellan, the information therein is in accord with data available to the Bureau, and there are no further observations or suggestions that the Bureau can make at this time.

SUBJECT: PROBE BY SENATE INVESTIGATIONS-  
SUBCOMMITTEE (McCLELLAN) COMMITTEE  
REGARDING DISCLOSURE OF SECRET DATA  
MISCELLANEOUS - INFORMATION CONCERNING

A news article dated June 25, 1956, in the "Daily Mirror," a New York newspaper, reflects that Maxwell Rabb, a Cabinet secretary, was summoned, on June 24, 1956, by Senate Investigators, to explain why an author was given access to secret White House information denied to members of Congress. The Senate Investigations Subcommittee Chairman, Senator McClellan (D. Ark), announced that Rabb had been asked to appear on June 26, concerning information which appeared in the book written by Donovan, a Washington News man.

The book in question is entitled "The Inside Story" deals with the Eisenhower administration. It is alleged to contain the confidential minutes of Cabinet meetings, advisory opinions and other information which the Executive Branch has withheld from Congressional Committees. Chairman McClellan noted particularly that the White House had refused to make available information on the decontrol of embargoed trade goods sent by NATO allies to the Soviet Union and other communist countries.

News releases on June 25 and 26 concerning this matter indicate that Maxwell Rabb has denied furnishing any information to Donovan in connection with the publication of Donovan's book and further stated that to his knowledge, none of his staff gave confidential minutes of Cabinet meetings to Donovan. Rabb declined to appear before the McClellan Committee as requested to testify regarding the information in Donovan's book which is to be released to the public next Monday. Excerpts from Donovan's book previously appeared in the Washington "Star."

## OBSERVATIONS:

1. Based on information appearing in the press, it appears that the request for Rabb to appear is based on an old point which has been raised many times between the Executive and Legislative Branches of the Government, namely, the right of Congress to have access to information in the files of the Executive Branch of Government.

2. Information in the files of the Executive Branch of the Government is classified under an Executive Order and it appears that it is the prerogative of the White House to declassify that information for such purposes as it deems advisable.

3. Maxwell Rabb has denied furnishing information from White House files to Donovan, and there is, in fact, no specific allegation as to what information was actually leaked to Donovan which was denied to the Congressional Committee. Therefore, it would appear that so far as this allegation is concerned, we should institute no investigation. The question as to what may be classified information is one which the White House is in a position to resolve.

RECOMMENDATION:

Since Donovan's book should contain much information of interest to the Bureau, it is recommended that the Crime Records Section obtain a copy of the book when it becomes available and that the book be reviewed.

Dear Mr. Hoover:

While the great majority of us abhor Communism, very few people have thought through a definition and set forth its aims. In reading President Dwight D. Eisenhower's address at Baylor University on May 25th, I was particularly impressed with the clear and simple language in which he spelled out Communism's meaning and objectives.

From the context of the President's speech, I put together his definition of Communism. On June 19th, the President wrote me giving his approval of the wording and permission to make unrestricted distribution.

With this letter, I am sending you a copy of the definition in form suitable for display as it is or, preferably, for framing. In the greatest ideological clash of all centuries, between the free world nations representing Liberty and the U.S.S.R. representing Communism, I believe that our cause would be furthered if tens of thousands of these definitions of Communism were hanging in homes, schools, stores, and offices all over the world.

If you wish copies to send to your friends and acquaintances, I am happy to tell you that [REDACTED]

[REDACTED] is prepared to make them available at cost (i. e., reproduction plus shipping expenses). Small pocket size cards bearing the definition have also been prepared. Please address your inquiry to me.

In addition to making this definition available in these forms in English, consideration is being given to reproducing it in the other principal languages of the world.

Memorandum for Mr. Nichols

The book "Eisenhower: The Inside Story," by Robert J. Donovan, was released recently by Harper and Brothers, Publishers, New York.

AUTHOR. ROBERT J. DONOVAN SUMMARY

Robert J. Donovan, born in Buffalo, New York, has covered Washington for the New York Herald Tribune since 1940. A past president of the White House Correspondents Association, he has been a frequent contributor to such magazines as "Harper's," "The New Yorker," "The Reporter," and "Collier's." He is the author of "The Assassins," a study of the motives behind the men who have attempted to murder Presidents. Taking a leave of absence from his paper, he spent weeks and months in intense research, and as much time in exhaustive interviews with present and former members of the government in order to complete "Eisenhower: The Inside Story." THE BOOK

"Eisenhower: The Inside Story," a pro-Eisenhower book concerning Eisenhower's first three years in the White House, gives an account of Cabinet meeting discussions and high-level conferences, neatly interspersed with incidents in lighter moments which serve to enliven the book, from pre-inauguration sessions in New York to the President's decision of February 29, 1956, to run for a second term.

While it would be impossible, from a practical standpoint, to mention all of the many and varied topics covered in this 407-page book, some of the items of particular interest to this Bureau include:

1. The President's decision in connection with the Rosenbergs' appeal for clemency. (Chapter 3; pp.42-47)
2. Civil Rights. (Chapter 11; pp.154-163)
3. The Brownell-Truman-Harry Dexter White Affair. (Chapter 12; pp.177-182)
4. Eisenhower and McCarthy--refusal to descend to McCarthy's level--Zwicker, Stevens and Peress Case--the Army-McCarthy Hearings. (Chapter 18; pp.243-258)
5. The Administration's revision of the Employee Security Program--Executive Order 10450--Ladejinsky and Chasanow Cases--Oppenheimer. (Chapter 21; pp.285-299)
6. Racial tensions and disorders in the South--the Director's reports to the Cabinet. (Chapter 29; pp.389-391)

REFERENCES TO THE FBI

There are numerous references to the FBI and/or the Director, none of which appear to be critical.

Cabinet Members Investigated

On page 80, the author indicates that when the President began his selection of high officials of his administration before his inauguration, he made it clear that those chosen must have records of conduct beyond reproach and that he (Eisenhower) let it be known that they must expect a systematic inquiry into their backgrounds, and even members of the Cabinet were subjected to full field investigation by the Federal Bureau of Investigation.

July 9, 1956

Bohlen Nomination

In connection with the President's fight with Congress over the nomination of Charles E. Bohlen as Ambassador to the Soviet Union, there are several references to the FBI. On page 87, the author states: "On March 20 McCarran (Senator) charged in the Senate that R. W. Scott McLeod, the State Department security officer, had been 'unable to clear' Bohlen 'on the basis of information received from the FBI' but that McLeod had been 'summarily overridden' by Dulles." On page 88, he states: "Dulles had assured the Foreign Relations Committee that an FBI investigation had left 'no doubt' that Bohlen was loyal and was not a security risk." Further on page 88, he says: "Still, McCarthy and McCarran had stirred up such a tempest that on March 23 Taft and Senator John J. Sparkman, of Alabama, the 1952 Democratic Vice-Presidential nominee, agreed to act as a sort of two-man Senate jury and read the FBI summary of the Bohlen file."

Harry Dexter White Case

References to the FBI in connection with the Harry Dexter White case are as follows:

Page 178--"Brownell said that on December 4, 1945, an FBI report on the 'espionage activities' of White was delivered to Truman at the White House through his military aide, Brigadier General Harry H. Vaughan....The FBI, according to Brownell, then prepared a second report on White and gave it to Vaughan on February 4, 1946, 'for delivery to the President.'"

Page 179--"Truman explained that he first learned of the accusations against White early in 1947 through an FBI report brought him by Vaughan and through a warning from James F. Byrnes, then Secretary of State, who also had seen the report."

Page 180--Truman, after consultations with members of his Cabinet, decided to let White's nomination and appointment take its normal course, because "any unusual action might have alerted White to the FBI investigation being made of himself and others and thus imperiled it."

The author states: "Brownell and FBI Director J. Edgar Hoover subsequently appeared before the Senate Internal Security Subcommittee and testified that Truman's decision to retain White had hampered rather than helped the FBI investigation. Hoover said he had never agreed to it."

Page 181--At the President's press conference, November 11, 1953, a reporter asked, "What did you understand was the purpose of bringing information from the files of the FBI before a luncheon group instead of some official body, such as a grand jury or another body of Congress...?" The President replied he had not considered

July 9, 1956

the point since he had merely been told that certain information was going to be made public.

Page 182--At a Cabinet meeting on November 12, 1953, "Brownell told the Cabinet that in the controversy then raging the point should be stressed that the FBI reports actually went to the White House before White was promoted."

Security-Government Printing Office

Page 246--In connection with McCarthy's subcommittee investigations into security regulations in the GPO, it is stated: "...McCarthy and GPO officials got into a dispute as to whether the FBI file on a certain bookbinder listed forty informants as having reported that the man had engaged in Communist activities."

J. Robert Oppenheimer

Page 294--"On November 7, 1953, William L. Borden, former executive secretary of the Joint Congressional Committee on Atomic Energy, sent a letter to J. Edgar Hoover saying that 'more probably than not J. Robert Oppenheimer is an agent of the Soviet Union.'"

(b)(7)(C)

(100-548)

Pages 294-295--"After Borden's letter arrived, the FBI prepared an inch-thick summary report on Oppenheimer--the full Oppenheimer dossier, when stacked up, rises, it is said, four feet and six inches above the floor--and distributed it, along with copies of the letter, to the White House and interested government departments on November 30."

Page 295--"Simultaneously another copy had gone out from the FBI to the Pentagon, where it caused a shock."

General Accounting Office-Brownell

Page 341--"When the Attorney General investigated the failure of the GAO to report to the FBI on questionable activities by a certain clothing manufacturer, he discovered that some of the GAO staff had been instructed by McCarthy to hold back such information until McCarthy felt the right time had come for producing it."

July 9, 1956

Racial Tensions

The March 9, 1956, Cabinet meeting considered segregation.

Page 390 - "J. Edgar Hoover was present and made a long report."

The author continues: "In discussing resistance to segregation he noted that Democratic Senator James O. Eastland of Mississippi, new chairman of the Senate Judiciary Committee, had urged resistance at a meeting in Birmingham, Alabama, on February 10, saying, 'The Anglo-Saxon people have held steadfast to the belief that resistance to tyranny is obedience to God.' Hoover informed the Cabinet, however, that Eastland had not advocated violence. He quoted the Senator as having said at the same meeting, - 'The fight we wage must be a just and legal fight. Acts of violence and lawlessness have no place in our organization.' He reviewed the Negro boycott of buses in Montgomery, Alabama, in protest against segregation, and the disorders at the University of Alabama to bar the admission of a Negro student, Autherine Lucy. Hoover called the latter a 'disgraceful incident.'

"He then reported that the Communist Party was trying to infiltrate the National Association for the Advancement of Colored People, but that the association remained anti-Communist.

"The Communists have decided now,' he continued, 'to concentrate their activities in Alabama, Georgia and Mississippi since these are the growing areas of industrial concentration where Communists think they have their best chance to infiltrate and expand the party strength. The party is now engaged in an active program to send party members from the New England States to these three states where they will concentrate in the textile industry.

"The Communists intend to inject the Negro question into every possible issue. They claim that the unfortunate and brutal killing of fourteen-year-old Emmett Till in Greenwood, Mississippi, in August, 1955, is the finest thing that has happened from their standpoint. For public consumption they claim that the Till case is an historic event and the turning point in the Negro struggle for liberation.'

"The antisegregation white Citizens Councils throughout the South, Hoover said, 'either could control the rising tensions or become the medium through which tensions might manifest themselves.' The FBI knew of 127 of these which had come into existence since the Supreme Court decision on school segregation. Hoover told the (p.390) Cabinet: 'The Councils' program in some areas in applying economic pressure already has begun to make itself felt.'

Memorandum for Mr. Nichols

July 9, 1956

"He cited a number of cases. For example: 'A Negro dentist was told by the local bank he would be given no more financial assistance. A Negro gas-station operator who refused to put up a sign FOR COLORED ONLY was notified by the gas distributor that he would have to pay cash for oil and gas in advance. The local bank fixed a short deadline on his repayment of a loan. A doctor who was a member of the N.A.A.C.P. was told by patients that their employers would not pay their doctor bills in the future.

"Calm, judicious judgment, public education and real understanding are needed to avert explosive incidents,' Hoover concluded. 'The area of danger lies in friction between extremists on both sides ready with violence.'

"During the ensuing discussion Hoover said that the sale of firearms had increased significantly in the South--by 400 per cent in one community, he said, citing an extreme case."

CONCLUSION:

Inasmuch as references to this Bureau concern matters already widely publicized and in view of apparent non-critical nature of these references, Bufiles were not checked.

Dear Members of Congress:

(b)(7)(C)  
NOK OC  
I am writing to ask of Mr. Nixon's statement is true that Mr. Dwight D. Eisenhower has been impeached by Congress and that he and Mrs. Eisenhower are on public execution at the mercy of the people. If this is true, then will Congress please supply the people with executioners, for I am nearly dead myself with Mr. Eisenhower's orders to members of his paid vicious circle, which is part of the Eisenhower Extortion Racket.

has requested me to mention to you that he is tired of being told by both Mr. and Mrs. Eisenhower to kill me in cold-blooded murder at my brother's residence from where I am writing this letter.

(b)(7)(C)  
According to Mr. Eisenhower's own confession, he and Mrs. Eisenhower and his vicious circle have been trying to take my life since the day of my birth, October 26, 1906, and in my immediate family have succeeded in taking the lives of my parents, [redacted] and my three brothers, [redacted]

as well as my father's sister and her husband, [redacted] by vicious circle and cold-blooded murder.

Mr. Eisenhower explains to me that the above is all a part of Mr. Eisenhower's Extortion Racket. The reasons for these deaths he tells me is for my grandfather's fabulous fortune, which he, Mrs. Eisenhower and the Mother Queen Elizabeth now possess.

It is now my godly duty to request the prosecution of Mr. and Mrs. Eisenhower and all members of their paid vicious circle and paid trained murderers who will not stop praying death and killing in cold-blooded murder throughout the entire universe.

(b)(7)(C)  
Because of these extortionists, I cannot at present afford a lawyer and have been unable to get a court order through the Superior Court of New Jersey, Hackensack, N.J., or the Supreme Court of the United States of America.

[redacted] of the Superior Court of New Jersey answered my letter saying he would do the best he could in regard to this matter, but to date no action deliberately, I understand, has been taken by [redacted] and he has not forwarded my correspondence to the Judge of the Supreme Court at my own request, if for any reason he found it impossible to handle the matter for myself and the people of the United States of America.

Will you therefore please do whatever you can to restore my grandfather's fortune to me, which was willed in part to myself and the remaining part to my parents and brothers, which amount, deeds to properties and items of

I also request the confessed stolen \$53,000,000,000,000, deeds to properties, etc. be returned likewise to the survivors of the other 19,000,000,000, etc. people who died by vicious circle, and cold-blooded murder throughout the entire world, as confessed to the priest of the Jesu Church, Miami, Florida, by President and Mrs. Dwight D. Eisenhower..

The names and addresses of the people affiliated with the racket, I believe can be secured from the President's woman secretary. I also believe you will find among these names the name of the Other Queen Elizabeth and her Royal Family, from whom I wish returned everything of my grandfather's extorted fortune, the correct amount, sterling silver, furnishings, etc. which you can also secure approximately from President Dwight D. Eisenhower.

By mental telepathy, President Dwight D. Eisenhower has requested me to ask your immediate attention to this matter and over a year ago in the same way has requested me to expose Mrs. Eisenhower's Extortion Racket throughout the entire universe. As a member of God's service for the past twelve years, I have investigated to the very best of my ability, with God's help, every available detail of Mrs. Eisenhower's Extortion Racket and now ask your immediate cooperation in this matter, especially in securing the assistance of the police throughout the world, as in Florida and in New Jersey even by personal request I have been unable to do so. My understanding is that the police and judges of courts are paid not to prosecute members of Mrs. Eisenhower's Extortion Racket.

I understand the United States Government at [redacted] in the United States Post Office a reward of \$500 for the capture of Jack the Ripper. Mr. Dwight D. Eisenhower, by his own true confession, is that man and it is his wish that the check for \$500 be forwarded to me at [redacted]

Trusting all members of Congress will give their immediate and full cooperation in the complete eradication of Mrs. Eisenhower's cold-blooded murder extortion racket, I am

My dear Sir -

I have just finished reading with great interest, your article in Today's N.Y. magazine on "Vision for America", and automatically another great "visionary" came to my mind, is our great and beloved "Ike." Should he not be immortalized with the other great leaders represented in the illustration? What other great leader have we had who has given as much to our Country, in service, dedicated his life from his youth not only to his Country but to the world! I am an elderly woman and not qualified for the task but I deeply love to do my bit towards such a project.

President Eisenhower must

We shall say that  
President Roosevelt was

Eisenhower

My dear Mr. Hoover:

I have just re-read the absorbing book "Crusade in Europe" written by General Dwight D. Eisenhower. My previous sympathy and admiration for him - common almost to every body in the free countries - were thereby instantly raised sky-high! The simple and modest way in which he refers to the greatest achievement in human history and to his own exhausting planning and work and to the risks of his own life, make the book more attractive and its author becomes the dear human hero deserving love and devotion.

There, in his book, Mr. Eisenhower is not only the greatest Captain of all times, but reveals himself as the prominent Statesman in whose wisdom and foresight may rely Humanity to secure freedom, bread and happiness.

My sincere most genteel feelings and my deep and warm affection for him have led me, to humbly wish he were so kind as to accept through you, if possible, a little token, provided - of course - I do not hurt his delicate feelings and great dignity. As you are - I understand - a personal friend of his and have access to the White House, I think that no one near him is in better circumstances than you, for this purpose, if there is no objection from your part.

Among my gold indian jewels I have a "royal eagle" whose size is hereby delineated. Legend and information report that such "royal eagles" were consecrated to the exclusive use of the Great Chief. Nobody deserves it so well, then, as Mr. General-President Eisenhower! To collectors this piece offers certain characteristics of interest: of solid gold with a light copper alloy - to enhance its beautiful color, - it has some simple drawings of Maya nature, a detail I did not find in thousands of eagles that have passed by my hands. Pre-Colombian jewels with such an alloy become more and more rare and difficult to find as most of them appear very deteriorated due to the natural corrosion produced in the ground. But it happens that this one is in fine condition and complete.

RECORDED-13

It would make me the happiest man on earth to know that Mr. Eisenhower is so understanding and noble as to accept it. Then I hope you may be so nice as to instruct me about how to send it carefully and safely to you, so that you may present it for me, or otherwise as it should be more convenient.

There is another circumstance which has caused me to like better and feel in more affinity with Mr. Eisenhower:

I was suffering of my heart in 1942 and according to the doctors diagnosis I should be in the grave since 1945, particularly if I would continue carrying on the tremendous bulk of work I usually had and have. But I put myself under "observation", studied well my pantings, depressions, irritations, the general tendency to apathy, the lassitude or fatigue produced by stairs or any strong effort... and then applied myself to cure all that and the rest of the symptoms, in a natural way, absolutely without pills, injections, etc, etc... and here I am stronger than ever, feeling better than ever and doing more work yet! I found that there are certain natural products with which to feed the heart and which operate as wonderful chemicals to safely secure the restoration and health of that organ (the most brave and intelligent we have) if, helped, besides, with certain breathing exercises to promote a better auto-irrigation of the heart. If this interests in any way Mr. Eisenhower, with the greatest pleasure and immediately I would communicate these little discoveries to you for him, or directly if I were allowed to do so.

I wish that you Mr. Hoover, may be also so generous as to forgive my daring and trouble to you. But it happens that I do not have friends in Washington able and fit enough to do this most diplomatic commission near his Excellency the President.

Referring to another matter: perhaps you remember (or if not it must be in your files) that some years ago, I wrote you that Hitler was alive after the last war and despite the many assertions about his death.

Well, the last December Police Gazette on pages 3-4 brings a sensational report on the subject. And something of interest: practicing one of my hobbies -science of "radiesthésie"- the pendulum reveals and ratifies this, in relation with the enclosed pictures:

- Hitler is still alive;
- Borgman is dead;
- Hitler's dog is also dead;
- Hitler is in Switzerland, but is really in Argentine at present!

I always thought that he was too much of a yellow devil, and with no family or military traditions to commit suicide.

When, -and if I come to the States-I will try to see you and communicate to you from person to person, something very serious concerning my last letter to you.

With my most cordial wishes for you,  
Let me remain,  
Yours very sincerely,

RETRAINING SESSION,  
NOVEMBER 4 THROUGH NOVEMBER 8, 1957

D. EISENHOWER

Pursuant to your request, there is attached a letter to the President of the United States inviting him to address the graduation ceremonies of the FBI National Academy at 11:00 A.M. on Friday, 11/8/57. The time of 11:00 A.M. is, as you know, thirty minutes later than our graduation ceremonies usually start but this time was selected in order to avoid a conflict with the Friday morning Cabinet meeting.

RECOMMENDATION:

It is recommended that the attached letter be delivered by the Liaison Section to the White House, and given personally to Press Secretary Hagerty.

My dear Mr. President:

It is my very great honor and privilege to extend to you this invitation to attend the graduation exercises of the FBI National Academy on November 8, 1957. The exercises, which will be held at the Departmental Auditorium here in Washington at 11:00 a. m., will mark the joint conclusion of the 60th Session of the Academy and of the retraining session for previous graduates.

The Academy, established in 1935 for the purpose of training state, county and municipal law enforcement officers to become police executives and instructors, has graduated 3,262 officers, representing every state in the Union, our territorial possessions and several foreign countries. Several hundred of these graduates, together with their guests, will attend the graduation ceremonies.

We, of the FBI, would consider it a very high honor to have you present on the occasion. The graduation ceremonies last approximately one hour. We would, of course, be happy to have you formally address those in attendance, but, if you would prefer, we would be delighted to have you make a few remarks rather than a formal address.

Respectfully submitted,

J. Edgar Hoover

THE WHITE HOUSE  
WASHINGTON

March 5, 1957.

Dear Edgar:

DWIGHT D. EISENHOWER

Thank you for your cordial invitation to attend the graduation exercises of the FBI National Academy to be held on November eighth. As I am sure you realize, it is impossible for me to foresee my commitments at that particular time of the year, and I therefore dare not predict whether it would be possible for me to be with you. May we leave it that I shall ask someone to get in touch with you approximately a month before the graduation date?

At any rate, I would like to be excused from any kind of formal address -- since the preparation, for me, of any talk is enormously time-consuming.

Again my gratitude, and warm personal regard,

As ever,

My dear Mr. President:

I deeply appreciate receiving your letter of March 5, 1957, and we are tremendously pleased to learn that it may be possible for you to attend our National Academy graduation exercises on November eighth.

We, of course, thoroughly understand your preference not to make a formal address. Your presence and encouragement, however, I assure you, would be of immeasurable benefit to all of us in law enforcement work.

I shall look forward to hearing from one of your staff prior to our exercises.

The Director has invited the President to appear at the graduation exercises of the National Academy in November, 1957. The President replied by saying that he did not desire to make a commitment this far in advance and would consider the invitation a month or so before the scheduled time. *Roach*

On May 8, 1957, Mr. James Rowley, Chief of the White House detail of the Secret Service, advised [redacted] that the President was in receipt of a letter dated May 3, 1957, from [redacted]

Mr. Rowley said that this letter invited the President to address the banquet meeting of the annual convention of the Society on November 16, 1957, at Atlantic City, New Jersey. Mr. Rowley advised that he discussed this matter with Mr. Bernard Shanley, Appointment Secretary to the President, and that an answer would be sent declining the invitation. Mr. Rowley said that he reminded Mr. Shanley at that time that the Director had invited the President to speak at the National Academy graduation in November. According to Mr. Rowley, Mr. Shanley indicated that the President was favorably inclined to accept this invitation; however, nothing definite would be known until early Fall.

SUBJECT: PRESIDENT'S ATTENDANCE AT FBI NATIONAL  
ACADEMY GRADUATION, NOVEMBER 8, 1957

Reference is made to my memorandum to you dated October 18, 1957, reporting that the White House desired to have a copy of the scheduled events to take place at the FBI National Academy graduation, November 8, 1957. Reference is also made to your memorandum from Mr. Tamm to Mr. Tolson dated October 21, 1957, recommending that liaison furnish the necessary program to the White House and also to find out if it would be proper to list the President on the program.

(b)(7)(C) On October 21, 1957, [redacted] of the Liaison Section handed a copy of the program to Mr. Thomas E. Stephens at the White House. Mr. Stephens said that he was very pleased to see that this event lasted only 45 minutes because the President earlier today had indicated to Mr. Stephens that he desired to attend the entire graduation exercises. Mr. Stephens stated that this event will be on the President's calendar; therefore, will become public knowledge that he is attending the graduation exercises. Mr. Stephens said that it would be proper to list the President on the program and to take any other action necessary in connection with his appearance.

[redacted] of the Liaison Section today contacted Mr. James Hagerty, Press Secretary to the President, in connection with the President's appearance at the FBI National Academy graduation November 8, 1957. [redacted] handed Mr. Hagerty a copy of the program. This interview took place immediately following Mr. Hagerty's announcement concerning the Attorney General leaving. Mr. Hagerty notices that Mr. Brownell was scheduled to give out the diplomas and said he was not sure exactly when Mr. Brownell was leaving and that we should take up this point with the Attorney General.

Mr. Hagerty advised [redacted] that he is extremely tired and that he had hoped to get away on vacation but that this has been delayed and if he is in Washington or even New York, he will attend both the banquet on November 6 and the graduation on November 8. Concerning the graduation, Mr. Hagerty stated that if he comes with the President he will sit on the platform if the Director insists, otherwise he will sit with the press. Mr. Hagerty stated that at the most one White House staff member will sit on the platform with the President; that the President does not like a large entourage.

Concerning the President's appearance on the platform, Mr. Hagerty said that the persons who are to be on the platform other than the Director and the President should take their places on the platform and that the President and the Director (the President standing on the Director's right) will appear in the doorway at which time the Marine Band will play Ruffles and Flourishes. After this phrase is sounded four times, the band then plays "Hail to the Chief," at which time the President and the Director will step forward to their chairs and remain standing until the entire piece is played.

Mr. Hagerty told [redacted] that he would like to announce the President's appearance at this graduation on Thursday October 31, and asked [redacted] if he could hand to him prior to this time a writeup on the FBI National Academy, the retraining session and the graduation. [redacted] said that he would see to it that this material was made available to him.

He stated that the photographers will photograph the President on the platform immediately after he begins his remarks and then will move away. The moving picture cameras, which records for news events and television, will probably photograph the entire President's remarks.

Mr. James Rowley, Chief of the White House Secret Service Detail, was also furnished a copy of the graduation program today. Mr. Rowley stated that the Secret Service would like to make a survey of the Departmental Auditorium early next week. At that time arrangements will also be made for the press tables and the photographers.

My dear Mr. President:

The law enforcement officers of America will long remember the honor and pleasure you gave them by joining in the graduation exercises of the Sixtieth Session and of the Retraining Session of the FBI National Academy. The personal interest manifested by your appearance and inspiring remarks today is symbolic of our country's concern for the need of maintaining law and order. Your presence has added great distinction and dignity to those who have dedicated their careers to the task of keeping the public peace in every city, town and county in the nation.

MEMORANDUM FOR THE DIRECTOR

On November 4, 1957, Attorney General Brownell handed me the attached memo dated February 3, 1953, regarding Status of Investigations and asked that it be returned to Bureau files since he had no further use of it in view of his leaving the office of Attorney General.

It is suggested that the Records and Communications Division appropriately handle the disposition of these documents and that Bureau files reflect such disposition.

Respectfully,

F. C. Holloman

My dear Mr. President:

I was deeply disturbed to learn of your illness, but together with all Americans was heartened by the news that you will soon be back at your desk. It is my earnest hope, however, that you will remove yourself from the day-to-day burdens of your office for a long enough time to assure yourself all the rest needed.

With warm regards and best wishes,

Sincerely yours,

Nov. 26<sup>th</sup> 1957.

Mr. J. Edgar Hoover, Chief,  
Federal Bureau of Investigation.

Dear Mr. Hoover: DWIGHT EISENHOWER

I write you after considerable thought as to where to forward my message. For quick action and also your capacity of responsibility for security of our President, I decided this letter should go to your department.

About a year ago I started a campaign through our local newspaper, to eliminate outdoor inauguration of Presidents. No great man, because of tradition, should be allowed to expose himself to weather conditions, wearing his hat and taking risks of a 71 year old.

Now I am greatly grieved, for the second time, that our President has again been subjected to an attack which I believe is at least partially brought on by exposure.

I am enclosing newspaper photograph of this date and it is readily responsible for this offering the following suggestion.

"Whenever it is felt our President, or anyone of prominence for that matter, should be required to expose himself, there should be provided a wig, exactly duplicating his normal appearance and such covering should be made of such material as to provide as good or better protection than normal hat coverage. With present perfection of make-up this could be accomplished without any apparent changed appearance.

This may sound somewhat screwball but I am most serious in my suggestion. May it have your consideration and God speed Mr. Eisenhower's recovery and protect him in the future. Very truly yours,

(b)(7)(C)

P.S. I am 60 years of age and know something about how much men in my age group can stand.

Subject: PRESIDENT'S STATE VISIT  
TO CANADA, JULY 8 - 10, 1958

There is enclosed an article from "The Gazette," Montreal, Quebec, Canada, dated 6-27-58, referring to searching of houses in Ottawa in connection with the visit of President Eisenhower to this city. Also enclosed is an article from "The Ottawa Journal," Ottawa, Ontario, Canada, dated 6-27-58, which mentions that there will be no searching of Ottawa houses by the FBI on any future U.S. presidential visits. It refers to former U. S. President Truman's visit at which time it reports the FBI had searched every home along his route through the capital. These articles are based on the debates in the House of Commons Thursday, 6-26-58, a copy of the pertinent portion of which is furnished as an enclosure. It will be noted that no mention was made in the debates of the FBI. Also that the debate apparently originated with an article appearing in the "Printed Word." I have been unable to obtain a copy of this.

The matter was again brought up in the House of Commons on Tuesday, 7-8-58, and there are enclosed an article from "The Ottawa Citizen," Ottawa, Ontario, dated 7-8-58, and two articles from "The Ottawa Journal," dated 7-9-58, reporting on this matter.

This is furnished for the information of the Bureau.

ROYAL CANADIAN MOUNTED POLICE

Security Measures During Visits of Heads of State

On the orders of the day:

MR. H. W. HERRIDGE (Kootenay West): Mr. Speaker, I should like to address a question to the Minister of Justice, with some restrained indignation. In view of the very disturbing tale in the "Printed Word," a periodical published by the public relations firm of Johnston, Everson and Charlesworth Limited, to this effect:

When President Truman visited Ottawa at the end of the war, his guards searched, without warrant, every house along the line of march, including clothes closets, attics and cellars.

Would the Minister of Justice (1) make inquiries as to the veracity of this report and later inform the house as to the result; (2) assure the house that such procedure will not be countenanced in Canada, at any time, for any purpose, and that the basic rights and freedoms of Canadians will be recognized and respected on all such occasions?

HON. E. D. FULTON (Minister of Justice): Mr. Speaker, I rather doubt whether an allegation about a matter that took place some 10 or 11 years ago, as the visit of President Truman did, is one of sufficient or immediate urgency to justify an inquiry on the orders of the day. However, I have had some inquiry made---

MR. SPEAKER: Order. If the minister is raising that as a point or order I would agree with him that the first part of the question might be dealt with differently, but the second part of the question remains.

MR. FULTON: Yes, Mr. Speaker. I can assure the hon. gentleman, as a result of inquiries I have made and discussions I have had with those connected with such matters that there is no likelihood of any such event taking place in connection with any future visit by any head of state who visits Canada. I am also able to say, since the matter has been raised, that the inquiries I have made indicate, so far as my present information goes, that the report of the incidents in connection with the previous visit to which the hon. gentleman has referred is greatly exaggerated, certainly in so far as any allegation of the searching of every private house along the route is concerned.

Mr. HERRIDGE: Would the minister inform the house if he considers that on such occasions the Royal Canadian Mounted Police are quite competent to provide all the security required?

Mr. FULTON: Of course, Mr. Speaker, I consider the Royal Canadian Mounted Police sufficiently and absolutely competent to provide all the security precautions that are necessary. However, the hon. gentleman will realize that certain protocols and forms are observed in connection with the visits of heads of state of other countries.

(b)(7)(C)

July 14, 1958.

Hon. Senator Homer Capehart  
Senate Office Bldg.  
Washington, D. C.

Dear Senator:

Thank God a few, and only a few, courageous Congressmen are to be found among the many loud-mouthed, spineless cowardly rubberstamper for Eisenhower. Your statement that we should go into East Germany and get our people regardless of the consequences is like a breath of fresh air in a dungeon.

I have long ago come to the painful conclusion that both Eisenhower and Dulles are cowards as far as the Russian Communists are concerned. As for Communism in general I believe that Eisenhower's association with the Negro-Jew Communist-membered N.A.A.C.P. indicates a pro-Communist attitude as against his own white race. Further proof is his silence as his Socialist Warren Court empties prisons of convicted Communists, robs states of their rights to prosecute Communists, sends Communists abroad to degrade this country, and hands down many other pro-Communist decisions, one as you know, the release of even a rapist, no doubt a Negro, for trivial cause. These are the vultures who set themselves up as guardings of our honored Constitution. And they are also the creatures who are usurping the power of a cowardly Congress to make the laws of the land. Surely, Senator, there are enough men like yourself with courage to curb these power-mad old men. One Senator had the courage to start--Jenner; but only Southern senators were ready to follow. That bill to limit the appellate power of the court should be forced out of committee and passed, along with a law to give the State Department the right to refuse passports to subversives. Old Mrs. Roosevelt is one of the worst of the lot.

Senator Capehart, please vote to kill the Foreign Aid bill and also the Reciprocal Trade Act. Both are against this country. The Administration does not want to stop the cold war. If no such war existed the Government could not so easily rob the people of tax billions. If the Government stopped newspapers and magazines from mentioning the name of Russia for a year or two the cold war would be over. Today after the upheaval in the Middle East the papers and radios screamed quotes from politicians seeking their own selfish ends. I don't mean that the Government should stop watching Russia, and closely, but stop all papers and magazines from putting out anything on the Russian situation. But Eisenhower, being pro-Communist, will not stop these stories. He won't even send troops into little Cuba to get

ENCLOSURE

our men out when we would be welcomed by the government, because the president wants, I believe, the Communist rebels to win. That has been our policy everywhere, so there is no other answer as I see it.

The billions sent abroad goes to either Communist or Socialist countries in varying degrees. Why should we pay these countries to fight for their own freedom? They are better off financially than when either of the two great wars began, and we did not have to furnish them the money and guns to start those wars. They are simply playing us for suckers.

In conclusion, Senator, now that Russia has moved in the Middle East we should go all out, call in our hand and have it over. Anyway, America has become over-crowded with crooks, self-seeking politicians and subversives and could well do with a few million killed off. However, I don't believe Russia would back up their threatening talk!

SUBJECT: ~~X~~ PRESIDENTIAL POLITICAL CAMPAIGNING

While discussing other matters with Presidential Appointment Secretary Tom Stephens and Assistant to the President General Persons, Stephens voiced some concern over the President's forthcoming campaigning on behalf of certain Republicans seeking election in November. Stephens stated that in order to fill all the commitments, the President has made it will be necessary to use a helicopter in many instances on very short trips; that the press is objecting to this as they are not able to keep up with the President when he hops from one appointment to another. The press complained that they cannot afford helicopter transportation and that they will miss considerable coverage if they are not with the President at the time he leaves and at the place where he arrives. Stephens said they had come to a near impasse in that the President must get around fast but the press must be accommodated and it will be necessary to reach some type of compromise.

Stephens indicated that the President is committed to considerable extensive campaigning. His most recent trip to New York with Nelson Rockefeller being an example. Stephens commented that between those seeking appointments (Stephens' responsibility) and those demanding certain press rights (Hagerty's responsibility) they are having "one hell of a time." According to Stephens the President is getting a big kick out of the whole thing.
